Monthly ECC Information Security Briefing
February 28, 2018

ECC Internal News

- JAMF Pro
  - The Cybersecurity and Technical Services departments within ITS collaborated to find a desktop management program for the Macs on campus
  - The product chosen was JAMF Pro (formerly known as Casper Suite)
  - This will finally give the Technical Services team a centralized management system for Macs – similar to Microsoft SCCM for PCs

- Cyber Degrees
  - A new resource has been posted to the ECC Cybersecurity website to help you investigate Cybersecurity degree programs
  - [http://www.cyberdegrees.org](http://www.cyberdegrees.org)

External News

GOOD NEWS! Nigerian Prince scammer arrested!

Forever 21 Stores Breached By Bankcard-Slurping-Malware

- If you shopped there between April and November 2016, you should monitor your credit card statements
- [http://www.theregister.co.uk/2018/01/03/forever_21_hacked/](http://www.theregister.co.uk/2018/01/03/forever_21_hacked/)

Data Breach Watch

U.S. Higher Education Breaches for January 2018:

- Oklahoma State University Center for Health
- Montana State University – Billings
- Broward College – Florida
- University of Idaho

Tip of the Month

The Real Cost of Genetic Testing Kits

- Would it concern you if a hacker stole your identity or your bank account information? Of course it would.
- The computer crimes of the future will be even scarier - and could possibly include ransoming your DNA sequence or even targeting you via bio-warfare!
- Even though these DNA testing kits are all the rage right now, do you really want someone stealing your molecular blueprint and selling it to the highest bidder?
Cyber Security Trivia:

The trivia question for this month is:

- Which of these is a series of messages sent by someone attempting to break into a computer to learn which computer network services the computer provides:
  - A. Bit jacking
  - B. XML coded transmission tunnel
  - C. Jabberwocky
  - D. Port scan
  - E. Service provider identifier
