Monthly ECC Information Security Briefing
March 26, 2018

ECC Internal News

Anti-Phishing User Training to Begin Soon
- After doing some major “Spring cleaning” in Active Directory (thank you Network Services!), we are ready to begin our first anti-phishing user training campaign
- Those of you who attended the Professional Development ITS session last year were privy to a preview of KnowBe4 and the various training modules that come with this industry-heralded training platform
- A brief instructional guide will be sent out before the campus-wide phishing tests begin

FBI Bulletin on W-2 Phishing Campaigns
- It’s that time once again boys & girls – Tax Season – and all the scams that go along with it!
- The FBI has noted a recent uptick in the amount of W-2 Phishing scams this year
- The official bulletin can be read here: https://www.ic3.gov/media/2018/180221.aspx

External News
Hackers Are Using Malware to “Jackpot” U.S. ATM’s, forcing them to dispense all cash

Biggest Crypto Heist in the History of the World!

- The Japanese coin exchange Coincheck was hacked and 500 million XRP cryptocurrency coins were stolen
- That equates to approximately $400 million in USD

Data Breach Watch

U.S. Higher Education Breaches for February 2018:

- University of Wisconsin-Superior Alumni Assoc.
- University of Alaska
- Columbia University (grad arrested for using key-logger software)
- Thomas Edison State University (NJ)
**Tip of the Month**

**How to Turn Off Facebook’s Facial Recognition Feature**

With the recent revelations of the Facebook/Cambridge Analytica scandal (where the data of 50 million FB users was used without their knowledge or consent), people are beginning to question the safety of their personal information when using the social media platform.

One of the most concerning new capabilities within FB is the use of AI (Artificial Intelligence) via the Facial Recognition feature, so I have included a link to a very easy-to-understand video instructing how to turn off Facial Recognition within your FB profile.

- Video Tutorial: [https://youtu.be/5UweUtZzNSM](https://youtu.be/5UweUtZzNSM)
- More info on the FB/Cambridge Analytica scandal:
  - [https://mashable.com/2018/03/18/what-is-cambridge-analytica/?utm_cid=a-seealso#WZWtUdrmLqg](https://mashable.com/2018/03/18/what-is-cambridge-analytica/?utm_cid=a-seealso#WZWtUdrmLqg)

**Cyber Security Trivia:**

The trivia question for this month is:

- What technology is used to measure and analyze human body characteristics for secure authentication into information systems?
  
  **Clue:** the answer is NOT Artificial Intelligence

- Email your answer to: pyoder@elcamino.edu
Write in with your IT security questions:

If you have any questions about cyber security, please send them to: pyoder@elcamino.edu
