ECC pinning June 7 @ 1800 Marsee auditorium, CEC pinning June 4 @ 1700 Compton Gym. B. Continue submittal of SLO assessments. Need meaningful assessments and dialog documented to insure sustainability (ACCJC). BRN visit: concerns re: testing, ATI, obstetric/Pediatric clinical at ECC (nonconcurrent), geriatric remediation. Students feel testing is too hard in some courses. T. Kyle feels we must be very intentional with testing to insure appropriate level, addressing NCLEX test blueprint, as well as curriculum. One test in each course for ATI results in students not valuing the product. Obstetric and Pediatric clinicals need to be concurrent with theory portion. ALL faculty med-surg and/or psych approved must also be geriatrics approved in order to teach in those courses. Remediation must be completed prior to start of all semester, so all faculty are approved prior to teaching again C. Not discussed. D. Not discussed.	Committee continues to work on the event.  Need 1 volunteer from each semester from each campus to take the test construction continuing education – these 8 people will then be trainers for the remainder of the faculty. K. Rosales, D. White volunteered. Need to develop ATI policy and decide as a group how we want to implement ATI. Will develop creative clinical schedule for OB-peds after securing days/hours with facilities. T. Kyle/P. Kidwell looking at online geriatric remediation as recommended by M. Minato.
<b>III. Discussion/Action</b> A. Technology B. Committee Reports i. Curriculum ii. Evaluation iii. Learning resources	A. Not discussed B. Reports: i. Curriculum – K.
