

THE HONORS CURRICULUM

Students in the HTP complete the same number of courses as other students planning to transfer. The HTP does not require you to take a minimum number of units per semester, but **you must complete at least one honors course each fall and spring** until you have completed the five required honors courses (you may “bank” as described on page 4). If you do not register for an honors course, or register for one and then drop it, you will forfeit your priority registration for the next semester. (NOTE: HTP will count one honors course completed at another college if you submit an unofficial transcript. We may also require a letter from a professor or counselor at that college.)

Before you register, obtain a list of honors courses for the following semester. This list is available on the HTP information counter and is printed in the Schedule of Classes under the heading “Honors Transfer Program Courses.” **Be sure to register for the designated honors section.**

New HTP students are required to take **English 1A** (unless previously completed or waived by AP exam) during their first semester in the program. We recommend that you take an honors section of English 1A.

Limitation: HTP currently offers three English courses, three history courses, and four communications studies courses; however, no more than two courses in the same department may count toward your total of five required honors courses.

Courses in the list below are regularly offered for honors credit, but not every course is offered every semester:

Anthropology 1	Introduction to Physical Anthropology
Anthropology 2	Introduction to Cultural Anthropology
Art 2	History of Western Art – Prehistoric to Gothic
Art 6	Cross-Cultural Art
Astronomy 20	The Solar System
Astronomy 25	Stars and Galaxies
Biology 10	Fundamentals of Biology
Biology 101	Principles of Biology I
Chemistry 1A	General Chemistry I
