WELCOME TO

Evolution

This is our 26th year of showcasing student talent. Evolution is defined as a process of gradual, progressive change or development. From our first fashion show in 1982 until now, El Camino's Fashion Department has grown and evolved thanks to our previous department directors, Professor Emeritus Chris Moran-Wisdom and Melanie McFarland.

Tonight's show will feature fashions from our community partners (which include high schools and local businesses) and our own El Camino students. Contributions to the show represent tremendous talent and for many, hours of work in design and in garment construction. Because of this fact, each item represented in the show is a winner.

Thank you for being our guest tonight. Enjoy the evening.

Ms. Vera Bruce
Fashion Show Advisor

El Camino initiated its first fashion show 26 years ago, not only to exhibit our fashion students, but also to inspire students and broaden their horizons. "Fashion Show Production" is a hands-on class that showcases the Design and Merchandising student projects produced throughout the school year. The Fashion Show Production Class is unique because the students get to decide everything about the show. From the title, to the graphics, to the music, models and spirit of the show, "It's all theirs!" A budget is calculated for advertising, promotion and staging. Models that are trained by the modeling committee display the student designs. The Tailor Made fashion club provides additional funding as a sponsor of this event. The event provides an avenue to share the departments pride to the campus and the community. All proceeds go towards next year's student design show and students scholarships.
