

Administrative Procedure 2725

Board Member Compensation

Per Board Policy 2725, Board members are compensated for their service. Board members will be paid through the District/Los Angeles County Office of Education (LACOE) payroll process. Each month, Board members will be paid an amount according to the Board Policy 2725 and will be paid on or about the tenth day of the month following the month of service.

Board member monthly payments will be reduced by any statutory payroll deductions and health care benefits that the member is entitled to or has selected. Board Policy 2730 delineates health care benefits for board members.

Each month, in the Board of Trustees meeting minutes from the previous meeting, attendance of Board members at the prior meeting will be noted. In addition, a board item will be presented at the next regular meeting of the Board recommending approval of absences. Approval of this recommendation will constitute Board approval of the absence. In the event of an unexcused absence from a meeting, the Board member will not be entitled to compensation for that particular month.
