

El Camino College  
Parking Committee Meeting  
February 10, 2016

Attendees: Mike Blada, Erick Mendoza, Patty Gebert, Lyn Clemons, Nina Velasquez, Dal Toruno.

The meeting started at 1:10pm

The minutes of December 9, 2015 were approved.

Parking Update

Parking hasn't changed much. The lots are full.

Reserved Stalls

There are 75 reserved stalls. Managers pay for the reserved stalls and expect it to be available when they are on campus. Can the price be raised or categorized by level of management? Can the stalls be used during the evening hours? A suggestion was made to have the reserved stall availability split between the day and evening hours. The stall would be available for use by staff/faculty during the evenings when the manager has left for the day. If the manager doesn't want to split the use, they can pay a higher price.

The discussion was tabled until more details are gathered on the use of the reserved stalls.

Lot H (South)

The section on the outside of the structure on the south end was turned back to student parking. It was not being used by staff.

Entrance by Natural Sciences

In-between Natural Sciences and the planetarium there's a wide open space/walkway with no signage showing "Do Not Enter". Mike Blada had seen a taxi go onto campus from that area. A sign needs to be put up stating access is for police and emergency vehicles only. Erick will give Mike the wording for the sign.

AQMD

It is the time of the year for the audit. Erick is working on the paperwork. The questionnaire for full and part-time employees will be going out.

Roundtable

Patty Gebert – Mike Stallings (architect instructor) works nights and can't find a parking stall. Cadets will be sent to Lot B after their evening briefing to clear out vehicles that are just waiting.

Erick Mendoza – The contractors delayed construction in Lot F so that the stalls would be available. This Friday they will be sectioning off one-third of the lot to continue construction.

The meeting ended at 2:04 pm.
