El Camino College Nursing Department to Sponsor Open House Event

The El Camino College Nursing Department is proud to announce the arrival of new high-fidelity wireless mother/baby simulators and the finished Ella Rose Madden Simulation Center. The public is invited to meet “Noelle” and her baby, “Ella Rose” at a Nursing Department Open House, scheduled from 12:30 to 3:30 p.m. May 20.

Noelle is a high-tech, wireless mannequin which can simulate the process of giving birth to a baby (Ella Rose) that breathes, has a heartbeat and cries. The new state-of-the art simulation lab is part of the college’s highly successful nursing program, funded in part by generous donations from the Ella Rose Madden Endowment Fund and the ECC Foundation.

At the open house, participants will receive information about the nursing program and can tour the simulation lab, or “sim lab.” Current nursing students will be on hand throughout the day to talk with prospective students.

The nursing program at El Camino College is one of the largest in California and boasts a pass rate on the national licensing examination averaging above 95 percent. Graduates earn an associate degree and are prepared for entry into the health care field as a registered nurse. Alumni of the El Camino College Nursing Department are employed throughout the United States in a variety of fields.

Approved by the California Board of Registered Nursing (BRN), the El Camino College nursing program is accredited by the National League for Nursing Accrediting Commission (NLNAC).

El Camino College is located at 16007 Crenshaw Boulevard, near Torrance. The Nursing Department is in the Technical Arts Building, Room 101. For more information, call 310-660-3281.
