For Immediate Release

November 11, 2010

El Camino College to Present Science, Technology, Engineering & Math Career Conference

El Camino College will sponsor a conference on Nov. 19 for students interested in careers in science, technology, engineering and math fields.

The STEM (Science, Technology, Engineering & Math) Student Conference runs from 9 a.m. to 2 p.m. at El Camino College, and offers a professional development opportunity for students interested in pursuing an education or career in any of the STEM fields. From engineering to entomology, students will learn about the latest careers in STEM fields, and be provided with information about degree programs offered at El Camino College and four-year universities.

Conference participants will start the day at the Student Activities Center East Lounge with breakfast and workshops to follow in the Humanities Building.

STEM conference workshop topics include: transferring to a university as a math, science or engineering major; careers in forensic science and entomology; robots and mobile phone apps; and a NASA/JPL presentation. In addition, an alumni panel will share experiences and success stories about how they transferred and moved on to exciting careers in STEM fields.

Interested students should register [online](#) by Nov. 17, or pick up, complete and return the application to the MESA Center (MCS 100F) or the Natural Science Division Office (LS 101).

For more information, contact 310-660-3593, Ext. 3244, or go to <http://www.elcamino.edu/academics/stem/index.asp>
