El Camino College Child Development Center Offers New Meal Program for Enrolled Students

The El Camino College Child Development Center (CDC) now offers a breakfast and afternoon snack, at no separate charge to enrolled children.

The CDC is state licensed, and nationally accredited by the NAEYC (National Association for the Education of Young Children). Flexible schedules are offered, along with a choice of two programs. The state preschool is open for children ages 3 to 5 years and the fee-based preschool is open to children ages 2 to 5. All students must be completely toilet trained.

Teachers at the CDC are academically prepared and trained in early childhood education. Preparing children to meet the challenges of kindergarten is a goal of the program, focusing on a developmental curriculum, which prepares the child cognitively, socially, emotionally, physically and linguistically.

The environment encourages exploration, discovery, making choices, and play, along with social interaction to foster self-esteem, competence, and autonomy in children.

Parents are encouraged to participate in their child's education, and an open door policy is maintained throughout the center. For more information about the CDC, call the office at 310-660-3720.
