**El Camino College to Present
Multimedia and Photographic Art Exhibit on Campus in the Schauerman Library**

Throughout March, the Schauerman Library present, "Moving Still Images," a collection of photographic art and short multimedia pieces by seven South Bay artists.

These artists, from the PhotoSavvy and Life's Eyes groups, have extracted selected still images from their short multimedia pieces and framed them alongside the multimedia of origin. The exhibit demonstrates how great still images are when further enhanced by music and image movement.

Artists include: Constantine Lackides, Rudy Rodriguez, Francis Goroszko, Al Goroszko, Myrna Nakamura, Jim McKinniss and Don Goss.
