## **El Camino College to Sponsor “Majors Fair”**

El Camino College will sponsor a “Majors Fair” to provide students with information about the different courses of study at the college and how they can lead to a successful career. The event is organized by the college’s Counseling and Career Center and runs from 11 a.m. to 2 p.m. March 28 on the Library Lawn at El Camino College, 16007 Crenshaw Boulevard, near Torrance.

The fair is designed to help students choose a major by showing them the way to the career of their choice and demonstrating how an El Camino College education can get them there. Information about various majors and careers will be available, in addition to instructors who will offer first-hand information about their areas of expertise.

Other services offered by the Counseling and Career Center include: career planning courses, career workshops, and seminars on job-seeking skills such as resume writing and interviewing techniques. A variety of research resources are also available in the Career Services office.

For more information on the Majors Fair, or any other Counseling and Career Center service, call 310-660-6137.
