You Want It! You Got It! Workshops

In spring 2009, a needs assessment survey identified the professional development topics that most interest ECC faculty. "You Want It! You Got It!" is an ongoing series of one-hour Flex workshops (in the West Library Basement) that will deal with the most popular topics.

Motivating Students: Matt Kline

There are two main aspects of learning: the skill and the will. Come learn what educational theory says about the will (i.e. motivation) and how to strengthen your students' motivation to learn. This workshop will help you energize your students as they face papers and exams during the concluding weeks of the semester. [Register Online](#)
