The Office of Safety and Health has scheduled this excellent sexual assault prevention training presented by the Sexual Assault Crisis Agency (SACA). The Sexual Assault Crisis Agency's Prevention Education Program includes the facts about sexual violence; practical prevention strategies; and how to get help if affected by sexual assault, sexual harassment or stalking. The program addresses myths surrounding sexual assault vs. facts, and what can be done to increase personal safety, with practical tips for both women and men in taking responsibility for their actions. **No Registration Required. Workshops are open to faculty, staff and students. 1 hour Flex credit.**
