

**CAREER AND TECHNICAL EDUCATION
2015 SUPPLEMENTAL QUESTIONS
Fashion Department**

CTE programs must conduct a full program review every 4 years. The full review includes answering these supplemental questions. Every two years (once between full reviews) these supplemental questions must be answered and submitted to Academic Affairs for posting on the College website.

Use labor market data, advisory committee input, institutional data, and the provided CTE 2-year Program Review data to respond to the following questions:

- 1. How strong is the occupational demand for the program? As you analyze demand over the past 5 years and projected demand for next 5 years, address state and local needs for the program.**

Careers in the fashion area are vast and many are highly specialized. Some of the more common careers that our Fashion Design students pursue include that of a fashion designer, visual merchandiser, and patternmaker. Many governmental summaries of jobs/careers in the fashion sector include the sample sewer. Most of our students do not become sample sewers. It is difficult when looking at Labor Board statistics to accurately extract specific occupations that may have been grouped with the sewing/manufacturing sector of the field. This causes the projected and summarized numbers to be less than accurate.

According to the Board of Labor government statistics (<http://www.bls.gov/ooh/Arts-and-Design/Fashion-designers.htm>) the facts about

..."employment of fashion designers is projected to decline 3 percent from 2012 to 2022. Declining employment in the apparel manufacturing industry

is preventing overall employment of fashion designers from increasing...”
The median annual wage for fashion designers was \$62,860 in May 2012.”

The state reports:

Employment projections data for fashion designers, 2012-22						
Occupational Title	SOC Code	Employment, 2012	Projected Employment, 2022	Change, 2012-22		Employment by Industry
				Percent	Numeric	
SOURCE: U.S. Bureau of Labor Statistics, Employment Projections program						
Fashion designers	27-1022	22,300	21,700	-3	-700	[XLS]

In May 2012, the median annual wages for fashion designers in the top five industries in which these designers worked were as follows:

Management of companies and enterprises	\$78,590
---	----------

Specialized design services 62,560

Apparel manufacturing	62,390
-----------------------	--------

Apparel, piece goods, and notions merchant wholesalers 60,590

Wholesale electronic markets and agents and brokers	57,950
---	--------

In contrast, the state reports

(<http://www.labormarketinfo.edd.ca.gov/occguides/Summary.aspx?Soccode=271022&Geography=0601000000>) the following:

Paid salaried Designers.

The median wage in 2015 for Fashion Designers in California is \$67,246 annually, or \$32.33 hourly.

Change to Hourly Wages

Annual Wages for 2015	Low (25th percentile)	Median (50th percentile)	High (75th percentile)
California	\$46,146	\$67,246	\$89,341

Regarding the Position of Patternmaker For:

According to the National Labor Board Statistics (<http://www.bls.gov/oes/current/oes516092.htm>), the occupation of patternmaker, show the following statistics. : N

Employment (1)	Employment RSE (3)	Mean hourly wage	Mean annual wage (2)	Wage RSE (3)
----------------	--------------------	------------------	----------------------	--------------

5,440	8.7 %	\$22.73	\$47,280	2.4 %
-------	-------	---------	----------	-------

California State Statistics include the following:

Occupational Wages [Top]

Area	Year	Period	Hourly Mean	Hourly by Percentile		
				25th	Median	75th
California	2015	1st Qtr	\$25.15	\$16.74	\$23.10	\$33.06

Occupational Projections of Employment (also called "Outlook" or "Demand") [Top]

Area	Estimated Year-Projected Year	Employment		Employment Change		Annual Avg Openings
		Estimated	Projected	Number	Percent	
California	2012 - 2022	2,000	1,700	-300	-15.0	30

Following are occupational outlooks for visual merchandises; related to our fashion merchandising program.

Occupational Employment and Wages, May 2014

27-1026 Merchandise Displayers and Window Trimmers

National employment estimate and mean wage estimates for this occupation:

Employment <u>(1)</u>	Employment RSE <u>(3)</u>	Mean hourly wage	Mean annual wage <u>(2)</u>	Wage RSE <u>(3)</u>
93,000	3.1 %	\$14.20	\$29,530	0.7 %

According to state statistics:

**Merchandise Displayers and Window Trimmers
(SOC Code : 27-1026)
in California**

Occupational Wages [Top]

Area	Year	Period	Hourly Mean	Hourly by Percentile		
				25th	Median	75th
California	2015	1st Qtr	\$15.22	\$10.98	\$13.66	\$17.72

**Occupational Projections of Employment (also called
"Outlook" or "Demand") [Top]**

Area	Estimated Year- Projected Year	Employment		Employment Change		Annual Avg Openings
		Estimated	Projected	Number	Percent	
California	2012 - 2022	9,000	10,400	1,400	15.6	380

According to the National Labor Board Statistics
(<http://www.bls.gov/oes/current/oes516092.htm>),

, the occupation of patternmaker yielded the following statistics:
Employment estimate and mean wage estimates for this occupation:

Employment <u>(1)</u>	Employment RSE <u>(3)</u>	Mean hourly wage	Mean annual wage <u>(2)</u>	Wage RSE <u>(3)</u>
5,440	8.7 %	\$22.73	\$47,280	2.4 %

According to the local trade newspaper (The California Apparel News), which lists current job openings there were other statistics:

<https://www.apparelnews.net/classifieds/>

<https://www.apparelnews.net/classifieds/category/jobs-available/>

for December 11, 2015, out of 25 jobs listed, there were 3 patternmaking positions and 5 [patternmaking related positions, 4 fashion designer jobs, and no merchandising positions.

Interestingly, the state labor statistics show that patternmaking job are on the decline while current job opening show that patternmaking and related positions are very well representing in the list of current job openings. This list of open positions is available weekly and is one of the markers I will be researching to pattern and focus my program's offerings so that what is

learned relates directly to the types of jobs being offered. actual job requests.

- According to a recent article in Forbes Magazine, Fashion Design is one of The top 25 Associate's Degrees With The Highest Earning Potential: <http://www.forbes.com/sites/kathryndill/2015/08/28/the-associates-degrees-with-the-highest-earning-potential/>

-

As part of their 2015 – 2016 College Salary Report, [Payscale.com](http://www.payscale.com) asked survey respondents whose culminating degree is an associate's, and who graduated from schools in the U.S., work full-time in the U.S., and are not on active military duty to answer questions about their current employment and compensation. At the top of the list is Management Information Systems...” Included in the list is engineering, health care, and tech majors In addition in the top 25 are Fashion Design and Architecture, with associated careers paying mid-career wages of \$64,900 and \$62,100, respectively.

to watch in the year ahead, just-style asked leading executives for their feedback on the challenges and opportunities likely to emerge in 2014. Their insight provides a fascinating overview of the state of the sector today

http://www.just-style.com/management-briefings/outlook-2014-apparel-industry-issues-to-watch_id787.aspx

.

Outlook 2014: Apparel industry challenges 16 Jan 2014

Among the biggest challenges facing the apparel industry in 2014, one issue is increased volatility in apparel retail, along with the rise of omnichannel and its impact on sourcing and logistics.

I appears that our program is well suited to meet the needs of the future. With the addition of Fashion 14 that will teach grading as well as technical design, our students will be equipped to compete for positions in the industry.

2. How does the program address needs that are not met by similar programs in the region?

Some 2 year fashion schools including Art Institute and Fashion Institute of Design and Merchandising are private and expensive. El Camino's tuition is reasonable which meets the needs of many families who want to provide funding to education their children who cannot afford the private schools or universities (for four years). There are universities that have a BA program in fashion and related industries, including Cal Poly Pomona, Cal State Long Beach , Cal State Northridge and Cal State L.A. Students can complete most major courses at EL Camino and will have transferable credits to be used at the university level. Some of the private institutions are not accredited by the governing bodies that accredit the university. If a student wants to receive a Bachelor's degree in fashion, they can defray the cost by attending EL Camino, thereby reducing their overall educational debt.

3. What are the completion, success, and employment rates for the students? Discuss any factors that may impact completion, success, and employment rates. If applicable, what is the program doing to improve these rates?

We have recently required all students in a degree and certificate program to take Fashion 20 which is our internship course before "graduating". The need for student to experienced internships was lively discussed in our 2014 Advisory Board meeting where attends stressed the importance of students experience an internship. There is one example, where a student completed an internship and two years later, she is working at the company where she interned.This

supervisor has since requested more interns. The department currently does not have recorded employment rates. The anticipated remedy to this is to start an alumni association so that former students will have an avenue to share information on their career path as they travel upward. The status of this request is pending.

Factors that impact completion include accurate academic counseling which adherence should be stressed for each student. Two factors that impact student success is peer camaraderie and instructor connection with the student this can be perpetuated by students participating in our Fashion Club and instructors taking/showing interest in the success of their students. Factors that impact the employment rates are internship experiences.

The completion/success rates for the fashion department include:

For fall 2014, the success rate was 40%

For fall 2014, the completion rate was 46%

For spring 2015, the success rates was 63%

For spring 2015, the completion rate was 80%

To keep these measurements upfront with instructors, a strategy can be that all instructors will be given a copy of their success and retention rates and asked how they could maximize their class success and retention rates. their students.

4. If there is a licensure exam for students to work in their field of study, please list the exam and the pass rate. If there are multiple licensure exams in the program, include them all. Discuss any factors that may impact licensure exam pass rates. If applicable, what is the program doing to improve these rates?

NOT APPLICABLE

5. Is the advisory committee satisfied with the level of preparation of program graduates? How has advisory committee input been used in the past two years to ensure employer needs are met by

the program? Describe any advisory committee recommendations that the program is either unable to implement or is in the process of implementing. At the Adversary Board meeting in 2014, the board emphasized the need to provided internship opportunities for students to help students make a career decision as well as to e able to find/discover great future employees. This suggestion was implemented by a curriculum update requiring all certifies and degree completers to require at least a one internship.

In the 2015 Advisory Board Meeting, fashion styling was discussed. Advisory board members made recommendations on how to provide students with connections in the industry to further their ability to compete in the fashion stifling arena. A new class, Fashion 48, has been purposed and is currently being reviewed/updated in curriculum. The next step is to connect with Cal State Long Beach to see if this course can be made transferable to the university level.

California Education Code 78016 requires that the review process for CTE programs includes the review and comments of a program's advisory committee. Provide the following information:

- a. Advisory committee membership list and credentials**
- b. Meeting minutes or other documentation to demonstrate that the CTE program review process has met the above Education Code requirement.**

See attached minutes for 2014 and 2015 meeting minutes and for the current list of Advisory Board Members.

El Camino College Fashion Department

Advisory Board Meeting

Wednesday, April 22, 2015

Minutes

Meeting conducted by Vera Ashley

ATTENDEES	
Dr, Karen Robinette	Former Instructor – Cal State Northridge
Priscilla Ratcliff	Current ECC Instructor
Annette Owens	Current ECC Instructor
Dr, Vera Ashley	Current ECC Instructor
Meredith Jackson	Current ECC Instructor
Vera Kopecky	Former ECC Instructor
Julie Collana	Apparel Industry Patternmaker
Dr. Myunghee.Sohn	Cal State Long Beach University Instructor
Shirley Warren	Current Instructor-Did not stay for meeting..she had to teach a class
Laurie Paolozzi.	West High School Instructor (Torrance)
Kris Moon	Redondo Union High School Instructor (Torrance)

We met In the Avalon Room for dinner. After dinner, we took a tour of the fashion classrooms and then went down to room 111 in the ITEC building for our meeting.

We had an Ice Breaker, asking each attendant what was their best professional advice or best professional book read.

Flyers were distributed to each attendant advertising our then upcoming fashion show: "Runaway Runway"- Friday, May 8th at 7:30 p.m.

I showed a PowerPoint related to a proposed new class called "Apparel Styling" that would be added to the curriculum for our styling certificate. We received a lot of feedback and ideas about how we could maximize the class. We discussed sources/sites for internships and connecting the styling industry with El Camino.

We discussed the need to add an Advanced Adobe Illustrator Class to our curriculum and what competencies were needed. Annette Owens stressed the importance of an advanced course. Julie stated that at her job, knowing this program was important.

Although on the agenda, we did not discuss Hot Topics in the Industry and briefly touched on the curriculum review. We were running a little behind time.

I distributed sheets listing our classes and asked the board to review and look over them for suggestions and comments..

We discussed the benefits of developing Articulation Agreements with different schools and asked if any were interested. Most of the schools represented were open to such an agreement. The schools included:

We then left to go upstairs and preview fashion show garments (for creativity and overall look) for the Fashion Show.

At the end, I gave the attendees 2 complimentary tickets to the fashion show

Adjourned about 9:00 p.m.

See Attached PowerPoint shown at meeting.

Advisory Board Meeting Minutes
April 22, 2014**

Meeting Attendees

Name	Position
Jana Coke	Wardrobe Consultant
Christopher Griffin	President, MAGIC
Annette Owens	ECC Instructor
Kris Moon	Retired Union High School Teacher
Meredith Jackson	ECC Instructor
Vera Ashley	ECC Fashion Dept. Coordinator/Professor
Lauren Gold	VP of Business Operations, Requisite Clothing
Kande Hall	Jewelry Designer
Melanie McFarland	Former ECC Fashion Dept. Coordinator, Author

**El Camino College Fashion Department
Advisory Board Agenda/Minutes
April, 22, 2014**

- **Welcome**
 - We moved the meeting to room TA 210A because students were not finished with processing all of the fashion show garments. Meeting started at approx. 6:30 p.m.
- **Introduction/Ice Breaker**
 - Attending members introduced themselves. Attendees completed the yellow advisory committee surveys.
- **“IKON” Fashion Show, May 9th at 7:30 p.m.**
 - Discussed the fashion show and advisory board attendees were told that they would receive complimentary tickets to the show.

Discussion Topics

- Revised Mission Statement

- Attendees were given a copy of the former and newly proposed department mission statement. Some grammatical corrections were suggested. Attendees felt the new statement was far superior to the previous one.

- Stylist Certificate/New Course

- Attendees were given a copy of a draft for a fashion styling course, including the course objectives. Discussion included the following:
 - Make sure course covers or mentions all types of styling including personal wardrobe styling, merchandise styling, online, handbags and jewelry styling including non-body styling. Discuss related feature films, non-defined slots, creative director, brand director, product styling, freelance styling, part time styling, getting into the costume union, what is realistic about the field of styling, and incorporate all aspects of styling.

- Retail Associate Certificate/Proposed Certificate

- Course suggestions for a proposed short term certificate (Certificate in Retail Apparel Sales) were introduced to attendees. The discussion included the following:
 - Some felt that a student having the certificate might not have an advantage over other applicants. It was suggested that some business management courses might be added to the certificate to help make the student eligible for retail management positions. It was suggested that a discussion with a retail store's Human Resources Department employee might expose the benefits or drawbacks of having such a certificate.

- Fashion Student Success Program - Job Shadowing

- Attendees were given a copy of the invitation (given to students) to participate in the 2014 Fashion Student Success Program. Each factor in this program was discussed.

● ~~Supplemental Questions~~-(Not discussed as a topic)

- In the discussions, several questions came up. Feedback include the following:
 - Regarding increasing the membership of the Tailor Made Fashion club, it was suggested that instructors give extra credit to students who attend club meetings. Students need an incentive to attend the meetings. Feed information through Facebook and Instagram.
 - Regarding fashion shows, it was suggested that there be fund raisers, a pre-show that starts 4 months ahead of time (Sept), dressers for show gain extra credit, have former students come back to the campus fashion show to show their line to current ECC students.
 - A very spirited discussion commenced on the subject of internships. One attendee stated that he hired three interns but internship can be a Human Resources problem in terms of liability issues. It was stated that Cal State Long Beach has students that are interning, but the internships are not overseen. It was stated the Woodbury University had students perform internships under their independent study courses. It was suggested that I look at how other colleges handle internships. Kande and Lauren stated that internships were important because they give the students profitable and real world experience. Meredith stated that NPR radio stated that internships are the single most important factor for getting jobs, even more important than grades. Internships provide a practical application of knowledge; the students become more valuable.
 - Chris stated that he hired three students after they had worked as an intern. He identified those students who had shown the ability to do the job based on their internship. They were from community colleges. The fact that they could do the job, the issue of then not having a bachelor's degree ever came up. He watched them under pressure. He called it a "vetting process". They wanted to work and their readiness to work was displayed in how they performed in their internship. All present members discussed how important it was to have students enrolled in internships. Another person called internships an "extended interview". Everyone felt that it was important to give students opportunities to intern.
 - Melanie volunteered at West High School. She noticed that Vocational Ed was not being recommended as an alternative to students after high school. She suggested that we pursue an articulation agreement with such schools as West High and Torrance High.

- Pre-judging of fashion show garments for workmanship
 - Attendees were given instruction on how to judge the workmanship and overall look of fashion show garments. The garments were set up in the back classroom of room TA 212 and scores were assigned to garments which were later tallied.

- Distribution of complimentary fashion show tickets
 - Attendees were given 2 complimentary tickets to the fashion show after they completed judging the garments.
 - Meeting ended approximately 9:15 p.m.
