Red and white marked stalls are made available to El Camino Community College District directors, deans and other management personnel for a fee through the Business Manager's Office. Adds and Drops

It is the student's responsibility to process an official withdrawal from class. Failure to do so may result in a letter grade of A through F. A student may drop a class or classes within the refund period and add another class or classes using the fees already paid.

If a student drops after the refund deadline, payment of fees for the classes is forfeited. Any added class will require additional fees.

A student may drop a class before the refund deadline and add the same class at a different time/date/instructor with no additional fees. If a student drops a class after the refund deadline in order to add the same class at a different time/date/instructor, the student must request a lateral transfer or level transfer from both instructors. All transfers are processed through the Admissions Office.

Matriculation

There are four important steps in the matriculation process:

1. file the admission application
2. participate in assessment
3. participate in orientation activities
4. make a counseling appointment to develop an educational plan.

We strongly recommend that first-year college students attend The New Student Welcome Day which is an open house activity sponsored by Counseling and Student Services to highlight the programs of study, support programs and services of El Camino College.

By following these steps, you will learn about clearing prerequisites, student rights and responsibilities, procedures on filing petitions, academic standards, student grievance procedures and other important areas of student life. Matriculation information is available in the college catalog, counseling and academic division offices and other locations on campus.

Assessment/Testing Procedures

Personal identification with a photograph and your El Camino College Identification Number is required to take tests and receive results.

For more testing information call 1-310-660-3405. **You must have an application on file at the college prior to any testing.** Testing should be completed as soon as possible after you file your admission application. The El Camino College I.D. number is generated upon submitting the application. Read the catalog description of classes which interest you to learn if there is any testing recommended or needed. Keep in mind that all placement tests are part of the multiple measures of the assessment process. Be sure to take testing results with you when you go for your academic advisement or educational planning sessions.

English Placement Test - Complete your *English Placement Test* at least one day before you attempt to enroll in any English course, which has a course level as a prerequisite, corequisite or recommended preparation. You may not repeat the *English Placement Test* once you have enrolled into both English course sequences. If you require further review of your placement recommendation, obtain the appropriate petition form in the Assessment/Testing Office.

English as a Second Language Placement Test - Complete both parts of your *English as a Second Language (ESL) Placement Test* at least one day before you attempt to enroll into any ESL course, which has a course level as a prerequisite, corequisite or recommended preparation. The first part of the ESL test is on a drop-in basis, the second part by appointment only. Begin your ESL assessment at least one week prior to your registration date. If you require further review of your placement recommendation, you should see the ESL Coordinator in the Assessment/Testing Office.

Mathematics Placement Test - The *Mathematics Placement Test* is required of any student who wishes to enroll in any mathematics class. High school math courses may not be used, *per se*, for placement into El Camino College math courses. However, they may be used in combination with testing for placement assessment, which must be completed before your registration date. Assessment and placement results will be valid for two years. Once you begin the mathematics course sequence, you cannot repeat the placement test and must take all courses in sequence. If you require further review of your placement recommendation, obtain the appropriate petition form in the Assessment/Testing Office.

Specialized Tests

Chemistry Placement Test - The *Chemistry Placement Test* is required of any student who wishes to enroll in Chemistry 1A unless the student has completed Chemistry 4 at El Camino College with a grade of C or better. Previous chemistry course work, whether taken in high school or another college, does not in itself qualify a student for Chemistry 1A. Students who have never taken a chemistry course or who want a beginning class may enroll in Chemistry 4, 20, or 21A depending upon their major and completion of mathematics prerequisites. The Chemistry Placement Test may be taken only once and may not be taken if a student has enrolled in Chemistry 4 at any time. If you require further review of your placement recommendation, obtain the appropriate petition form in the Assessment/Testing Office.

Mathematics Competency Test - If passed, this may be used to satisfy the El Camino College mathematics competency graduation requirement (item # 6 of Section A of the AA/AS graduation requirements.) If you do not successfully complete Mathematics 40 or 41B or any other course listed under the Mathematics Competency requirement for the A.S. Degree in the College Catalog, you must pass this test for admission into the Registered Nurse Program. Contact the Assessment/Testing Office for an appointment.

The *Mathematics Competency Test* is a basic algebra exam, which may be repeated a maximum of three times through a petitioning process. The appropriate petition form may be obtained through the Assessment/Testing Office.

Waiver Exams for the Associate Degree. A waiver exam is available for Contemporary Health only. Contact the Assessment/Testing Office for further information and an appointment.

The EOPS office provides supervised study, which is a tutorial service designed to assist students toward successful completion of their academic course work.

Financial Aid

Students who want to apply for a tuition fee waiver must obtain and complete a Board of Governor's Waiver (BOGW) application and information sheet from the forms bin located outside the Financial Aid Office, or apply online at ccccapply.org. Please be advised that the Financial Aid Office does collect supporting documentation for verification purposes. Students should review the information sheet to determine the appropriate documentation that must be submitted with the BOGW application.

Students who have filed a 2007-2008 Free Application for Federal Student Aid (FAFSA) AND have received a waiver for either the fall or spring semesters do NOT have to complete a new fee waiver application until the following fall semester.

The Financial Aid Office also offers the Federal Pell Grant and Stafford Loans during the summer sessions. Students who

wish to apply should have submitted a FAFSA to the federal processor and completed their financial aid files by June 30, 2008 or the last day of attendance, whichever comes first.

Career Placement Services

www.elcamino.edu/student-services/cps

CPS provides current students and alumni (who have completed a minimum of 15 units at El Camino College), opportunities to find part-time and full-time jobs, as well as seasonal, summer, and temporary employment. A comprehensive job board and computer lab allows students to search for jobs including online services.

The CPS staff also develops internship opportunities for students in every academic area. Internships provide students the opportunity to explore a number of career fields. Most internships are non-paid, short-term experiences which allow the students to "try on a profession." Many require only a few hours a week. Some require academic credit - see CPS staff for more information about academic credit for internships.

CPS also assists students in writing resumes and cover letters as well as preparing for interviews. Resume workshops are regularly scheduled and mock interview appointments can be made with the adviser.

Several job and internship fairs are held each semester. Individual employees also come to campus to recruit on a regular basis. Check the campus calendar (select Career Placement Services) http://www.elcamino.edu/uportal/calendar/select_cal.aspx for updates.

Special Resource Center

Located in the east wing of the first floor of the Student Services Center, the Special Resource Center offers a wide range of equipment, supportive services and classes for students with disabilities.

El Camino College recognizes its responsibility to provide an equal opportunity for education for all students. The college's courses, programs, and facilities are designed to accommodate the needs of students with disabilities. No one may be excluded from any course, program or activity.

Eligibility is determined by a specially trained, highly skilled professional and paraprofessional staff. Each student is assessed on an individual basis. Specific educational needs are identified and a plan is developed with the student.

Courses are designed to address the specific and unique needs of students with disabilities. The courses listed under "Educational Development" and "Adapted Physical Education" in this Schedule of Classes are also described in the College Catalog.

Interpreters for the deaf, readers for the blind, mobility aides for the physically impaired and instructional aides for the learning disabled may be obtained through the program for those who are eligible.

Distance Education courses are ideal for those who are looking for a convenient way to take courses. We offer both online courses (via computer) and telecourses (via video) in a wide variety of subjects. The courses are fully accredited and offer the same high quality of instruction as traditional classes. The course content, course credit, and cost per unit is the same as equivalent courses offered on campus. Anyone who is eligible to take courses on campus may enroll in Distance Education courses.

The courses offered this semester are listed under "Distance Education" in this Schedule (pages 14 to 18). Many of the courses have a mandatory first class meeting. If you do not attend the first meeting, you may be dropped from the course. Refer to the "Distance Education" section in this schedule for the time and location of the first meeting. This information can also be found on the Distance Education Web site.

Some online courses do not have a first class meeting. You must follow the instructions under the course listing or you may be dropped from the course.

The Student Handbook for Online Courses and the Student Handbook for Telecourses provide additional information about the courses. All students should obtain the Handbook(s) prior to the start of the semester. Both are available on the Distance Education web site and at our office. Please contact us if you'd like to have it mailed to you.

FAQs about Distance Education Courses

The first class meeting conflicts with another course I want to take. What should I do?

Do not enroll in both courses – choose only one!

Will I be required to attend class meetings on campus throughout the semester?

It depends on which course you are enrolled in. Refer to the Student Handbook for the total number of meetings you will be expected to attend.

If meetings are scheduled throughout the semester, when will they be held?

They usually take place on the same day and at the same time as the first class meeting. You may contact the instructor for specific meeting dates. You will find a faculty directory on our Web site and in our office.

How does an online course work?

Students in online courses communicate with their instructor and classmates electronically via a course Web site. The instructor posts such things as lectures, assignments, announcements, and other information to the site. The class may respond with questions, comments, etc.

Some activities may require students to be online at a given time (online chat sessions, online exams, etc.). Contact the instructor for information.

Students must have at minimum:

- A Computer - either a PC with Windows and a Pentium processor or a Macintosh with at least System 9.0
- Regular access to the Internet
- A recent version of a Web browser such as Netscape Navigator or Microsoft Internet Explorer
- An Internet service provider
- An e-mail address
- Current word processing software (as required by instructor)

Some courses may have additional requirements. The instructor will provide more information.

Computer literacy is required and experience with computer communication is recommended. The procedures for working online will be explained by the instructor.

What is a telecourse?

Telecourses are pre-produced video courses. They are shown locally on the ECC television station, which is carried on the Time Warner Communications cable system (Channel 8). Students who are unable to view the telecourses where they reside may check out video copies of the programs free of charge from the Schauerman Library or they may view them in the Library's Learning Resources Center. Copies may also be obtained for a fee through RMI Media Productions, Inc., a telecourse rental service. **Consult the Student Handbook for telecourses for the broadcast schedule.**

Is a Distance Education course right for me?

In order to succeed in a Distance Education course, you must be self-motivated and be able to manage your time effectively. You also need strong reading and study skills. Distance Education courses are every bit as challenging as traditional courses.

How Do I Enroll?

The registration process is the same for Distance Education courses as it is for on-campus classes. If you wish to enroll in Distance Education courses and on-campus courses, register for all of your courses at the same time.
