The El Camino Community College District is committed to providing an educational and employment environment in which no person is subjected to discrimination on the basis of actual or perceived race, color, ancestry, national origin, religion, creed, age (over 40), disability (mental or physical), sex, gender (including pregnancy and childbirth), sexual orientation, gender identity, gender expression, marital status, medical condition, genetic information, marital status, or retaliation; or on any other basis as required by state and federal law.
FOSTER & KINSHIP CARE EDUCATION

FREE classes for foster & kinship care resource parents focusing on skills needed for foster parents or relative caregivers to care for children in out-of-home care, as well as themselves. Our Mission: The mission of the El Camino College Foster and Kinship Care Education program is to provide quality education and support opportunities to caregivers of children and youth in out-of-home care so that these providers may meet the educational, emotional, behavioral and developmental needs of children and youth in the foster care system.

Why is the Foster & Kinship Care Education Program Important? From 1989 to 1998, the number of children in California’s foster care system has grown by more than 50%-- from 68,000 to 105,000. The dramatic increase in the state’s foster care population has been attributed to many factors—there are a greater number of children living in poverty, increasing numbers of parents who abuse alcohol and drugs, and increasing cases of child abuse and neglect. The El Camino College Foster & Kinship Care Education program plays a vital role in providing licensed foster parents and relative caregivers with the training and education that will help them in meeting the multifaceted and often complex needs of the foster children in their care. El Camino College and other community colleges play an important role by providing over 25,000 hours of education/training to foster parents and relative caregivers.
