Study Guide Lecture Finals

1. It has 70 multiple choice questions and 30 match the terms questions.
2. 50 questions I borrowed from earlier 4 lecture exams and 16 quizzes. The remaining 50 questions are from Chapters 25 – circulatory system; 26 – Respiratory system; 27 – Digestion and nutrition; 28 – Homeostasis; 29 – body defenses; 30 – Nervous system; 31 – Hormones; and 32 – Reproduction and Development.
3. You will need a scantron for the lecture exam.
4. Study the recaps, review the exams and quizzes, study the summary figures in text book or lab manual.
