

## Goals and Taking Control

### Strategies for Success 1

Team Name: \_\_\_\_\_

Members: \_\_\_\_\_

Objective: To identify goals for this course and strategies for meeting those goals.

**Individual Work:** Select one or two of your top goals for this course. Feel free to write your own under the "Other" categories.

- \_\_\_\_\_ Successfully complete this course in order to be prepared for Intermediate Algebra.
- \_\_\_\_\_ Successfully complete this course to meet a general education requirement.
- \_\_\_\_\_ Improve mathematics learning skills for better success in this and future courses.
- \_\_\_\_\_ (Other)
- \_\_\_\_\_ (Other)

**Group Work:** Make a list of ten strategies that you will use to help you be successful in this course and meet your goals.

1. Attend every class and be ready to start on time with all materials ready to go.
2. Get all questions answered.
3. Complete all assignments on time.
- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10.

**Class Work:** Together we will make a list of ten strategies that I will use to help you be successful in this class and to help you meet your goals.

1. Attend every class and be ready to start on time with all materials ready to go.
2. Answer your questions in class or during office hours.
3. Plan the course to ensure that we address the course objectives and adhere to the Course Outline of Record
4. Administer enough quizzes and tests to give you the opportunity to demonstrate your knowledge of the subject.
5. Treat you with the respect you deserve as a responsible adult.
- 6.
