ETUDES-NG Login Tips
Reasons why you may not be able to log on:

- Classes have not started yet. If the term has not started, this explains why you can't log on or access your class site. Typically, registration data is loaded on the first day of class

.

- You are not a new user of the system, yet you are attempting to log on with the default password. If you are not a new user in the system, please use the userid and password that you had established. Your account is not changed from term to term.

- You have requested to add a class, but you are not officially enrolled in the Registrar's Office. You will be able to log into the ETUDES-NG system the morning after you are officially enrolled in Admissions and entered into the Datatel system.

- You are entering invalid login information .

- You are attempting to log on from an unsupported browser, such as AOL or MSN. See system requirements (http://etudesproject.org/gateway/server_info.html) for information.

- You forgot your password or have the CAPS lock key on. You may request to have your password reset (http://etudesproject.org/gateway/reset_password_with_javascript.html).

- If your class is over and your instructor has disabled the site, you can no longer see a tab for the course.

- If you have been dropped from the course, you'll no longer have a tab to the class.
