

PSYCHOLOGY – TRANSFER REQUIREMENTS

The following requirements for the major are subject to change without notice. To assure that this information is current, you should consult with a Psychology counselor, or review articulation agreements via the Internet at WWW.ASSIST.ORG. You may also consult the Articulation Officer for specific articulation agreements.

CAREER OPPORTUNITIES: Psychology is the study of human behavior. Psychologists study the biological, physiological and genetic causes of behavior, as well as the emotional, social, and developmental factors involved. Psychology can be the foundation for a master's degree program in school counseling or for such fields as law, medicine, religion, government, management, marketing and industrial relations. Many positions require a Ph.D. Clinical and Counseling Psychologists use psychotherapy to modify the behavior of mentally and emotionally disturbed people. Community psychologists work with mental health organizations and welfare agencies. Developmental psychologists are concerned with changes in behavior from infancy through maturity. Experimental psychologists study behavior of people and animals (learning, motivations, emotion, sensation, perception, and the physiological bases of behavior). Industrial psychologists work on the interactions between people and machines in industrial situations.

ASSOCIATE DEGREE FOR TRANSFER (AA-T)

Students who have completed the AA-T in Psychology will have a strong academic foundation in the field and will be prepared for upper division baccalaureate study at the university. This coursework will satisfy most of the lower-division requirements at many institutions within the California State University system. This degree is intended for students who majoring in Psychology and may provide priority consideration for admission to a CSU.

Students considering transferring to a UC, private, or out of state university: Please consult with a counselor before applying to transfer since transfer requirements may be slightly different than those required for the AA-T.

Required courses:
