*In all options for the major, study of a foreign language is recommended. Ideally, acquaintance with a foreign language should begin before University study, but a student can also gain a great deal by beginning language study at the university level and continuing it through upper-division courses. Because most advanced degrees in English (e.g. MA, PhD) require knowledge of at least one foreign language, students aiming at such degrees should definitely include language study in their undergraduate programs. Students are encouraged to complete at least two years of a foreign language at the college or university level.
