

PHYSICAL THERAPY

COUNSELING DIVISION

The following requirements for the major are subject to change without notice. To assure accuracy of the information on this sheet, you should consult with the Physical Therapy counselor, or review articulation agreements via the Internet at WWW.ASSIST.ORG You may also consult the Articulation Officer for specific articulation agreements.

Physical Therapists help patients, including accident victims and individuals with disabling conditions such as low-back pain, arthritis, heart disease, fractures, head injuries, and cerebral palsy, by providing treatment through physical means (exercise, weight lifting, special equipment, hot and cold packs, traction, whirlpool baths, swimming pools, etc.). Physical therapy seeks to improve mobility, relieve pain, and prevent or minimize permanent physical disabilities. They restore, maintain, and promote overall fitness and health. Therapists work under the direction of a physician to assist patients in overcoming or compensating for any loss of function and in restoring physical and emotional health. Registered physical therapists can work independently of physicians. **Education:** to work as a physical therapist one must graduate with a master's or doctorate degree, from an accredited physical therapist educational program. All states require physical therapists to pass a state licensure exam before they can practice. For additional information about the physical therapy field view the following website: www.apta.org

*Please check the university campus website regarding the application process. Some campuses want the application done on the Physical Therapist Centralized Application Service (PTCAS). <http://www.ptcas.org/home.aspx>

CALIFORNIA STATE UNIVERSITY, LONG BEACH (2014-2015)

<http://www.csulb.edu/colleges/chhs/departments/physical-therapy/>

The Doctorate of Physical Therapy program is for baccalaureate degree holders in any field, who have met the prerequisite requirements, demonstrate academic promise and the ability to perform at a satisfactory level during their graduate studies. Complete all prerequisites with a minimum "C" grade (B is preferred). A realistic cumulative minimum GPA for applying to the program is 3.0. Please check the website for more details. Complete and file a supplemental application with the department and include a transcript of all academic work, a minimum of three letters of recommendation from a registered physical therapist, instructor, and an employer, scores from the Graduate Record Examination (GRE) within the past 5 years (4.0 on the analytic writing component), adult CPR certification, personal statement of career goals (2 pages), and a health statement from a physician.

Required Courses: Anatomy 32 and Physiology 31 or Anatomy and Physiology 34A and 34B; Biology 101-102; Chemistry 1A and 1B; Physics 2A and 2B or 3A and 3B; Psychology 5, Math 150 recommended; work experience (a minimum of 100 hours) in rehabilitation, geriatric, pediatric acute or general hospital physical therapy is strongly suggested. Only two courses may be in progress at the time of fall application.

CALIFORNIA STATE UNIVERSITY NORTHRIDGE (2014-2015) <http://hhd.csun.edu/pt>

The Doctorate of Physical Therapy program is for baccalaureate degree holders in any field; students must have a cumulative grade point average of 3.00 and a 3.00 in the prerequisites with a minimum grade of "C", three letters of recommendation, validation of relevant work experience (a minimum of 200 hours) under a licensed PT.

Required Courses: Anatomy 32 and Physiology 31 or Anatomy and Physiology 34A and 34B; Biology 10; Physics 2A and 2B; Psychology 5; Math 150; Chemistry 1A and 1B. Only two courses may be in progress at the time of application.

MOUNT ST. MARY'S COLLEGE (2014-2015) <http://www.msmc.la.edu/pages/217.asp>

The Doctorate of Physical Therapy program is for individuals who have earned a Bachelor's Degree from a regionally accredited college or university.
