

POLITICAL SCIENCE

Transfer Requirements

The following requirements for the major are subject to change without notice. To assure accuracy of the information on this sheet, you should consult with an academic counselor or review articulation agreements via the Internet at WWW.ASSIST.ORG You may also consult the Articulation Officer for specific articulation agreements.

CAREER OPPORTUNITIES

Political Science programs are designed to provide students with an understanding of politics, its processes, its theories, and its institutions. Political science programs are an excellent background for leadership in civic and political activities. Political science majors take education courses in order to be certified as teachers; others seek employment with government or private agencies. Political science is considered good preparation for law school, civil service careers at international, national and local levels of government, or careers in research. This major may also lead to many other careers. For additional possibilities, check the EUREKA computerized career database, the Occupational Outlook Handbook, or one of the many other career resources located in the Career and Transfer Center.
