

Fall 2021 & Spring 2022 Withdrawal Survey: Results Comparison

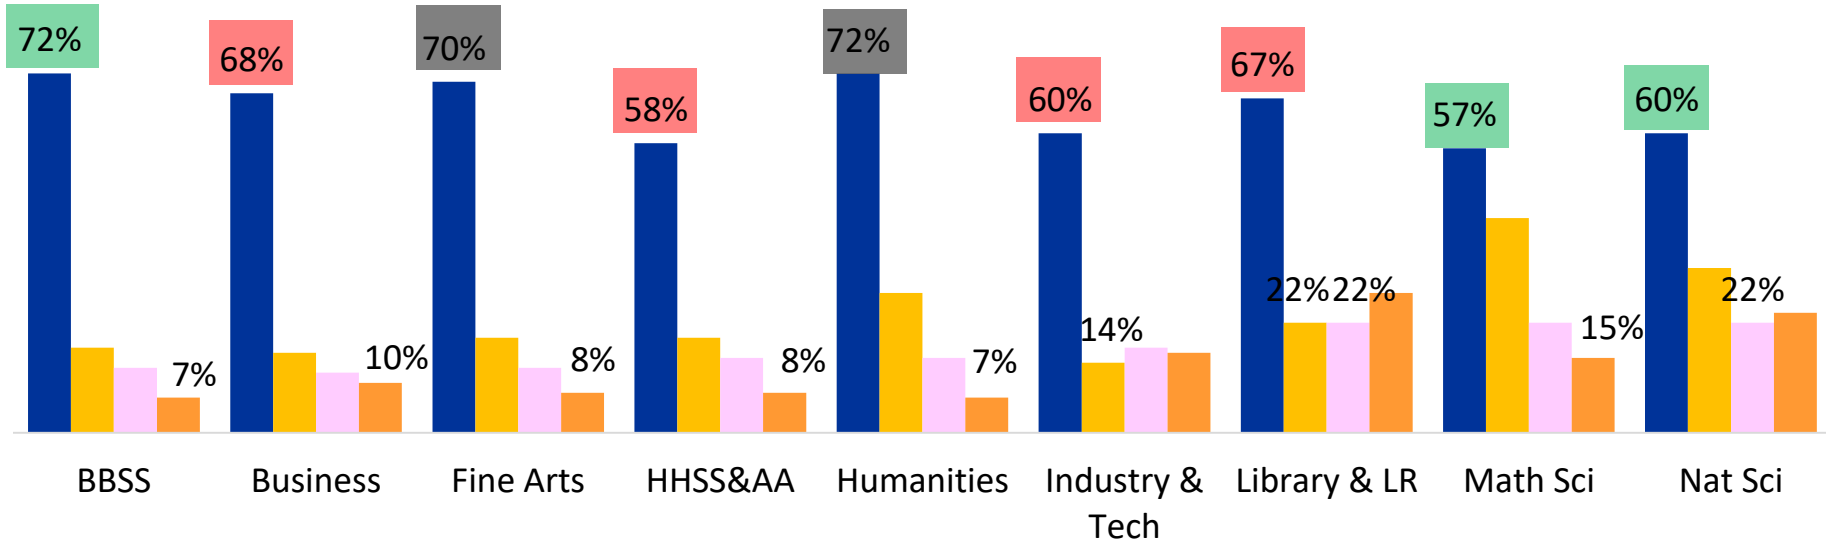

OCTOBER, 2022

Why Does ECC Administer the Withdrawal Survey?

The goals of administering the withdrawal survey are:

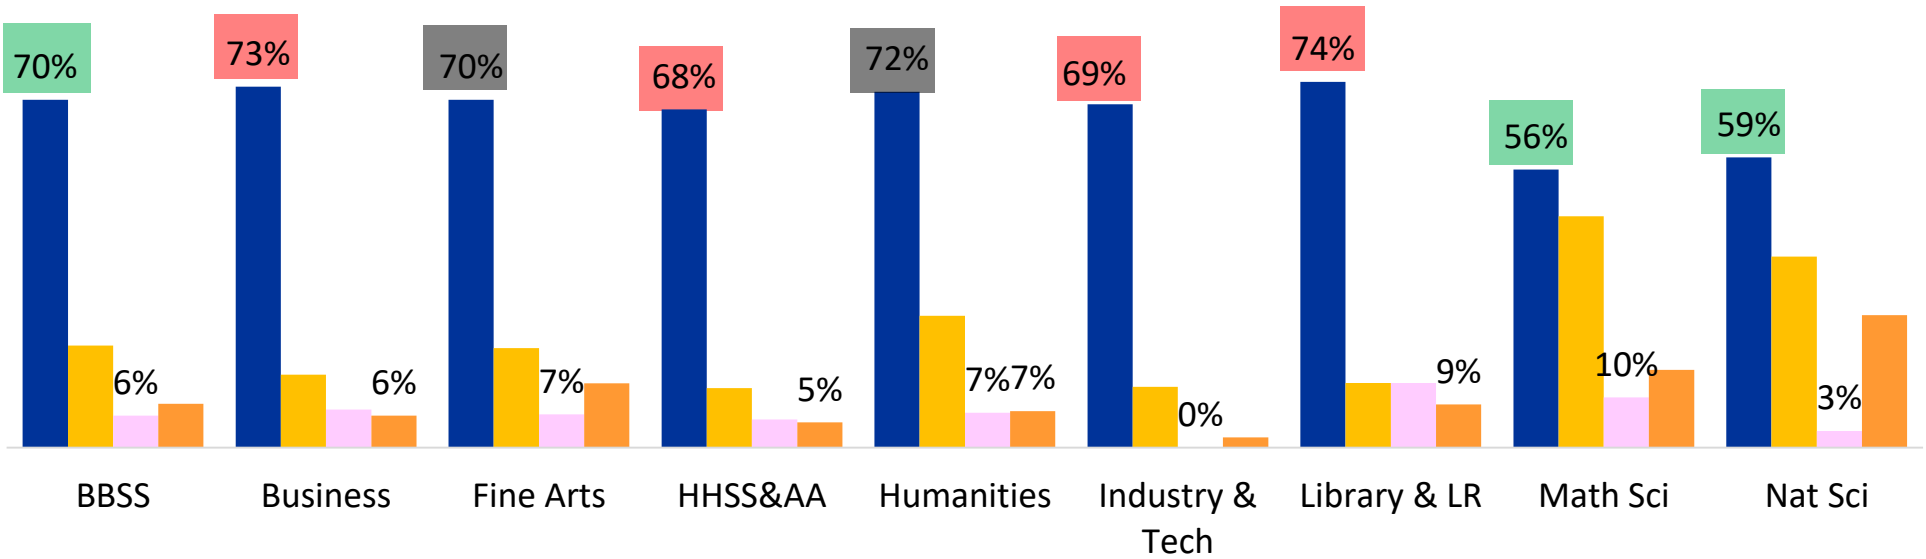

- Determine counts and rates of students who **are not** completing courses (the withdrawal rate is the inverse metric of course completion rate).
- Identify reasons why students withdraw from courses.
- Disaggregate data by divisions and students' race/ethnicity to inform divisions' and instructors' decision-making and implementation of actions regarding course-level and student services support.

Spring 2022: Responses by Division

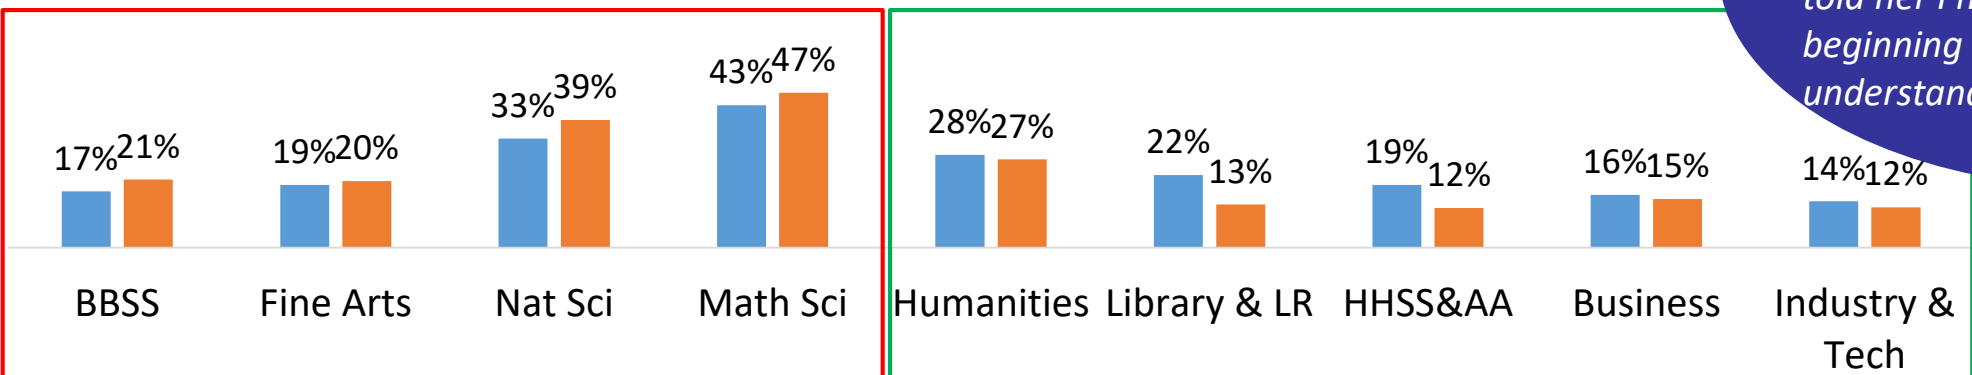

Responses by Topic

Personal Reasons

It was to much on my plate at the moment just have to manage my time better.

Difficulty of Subject

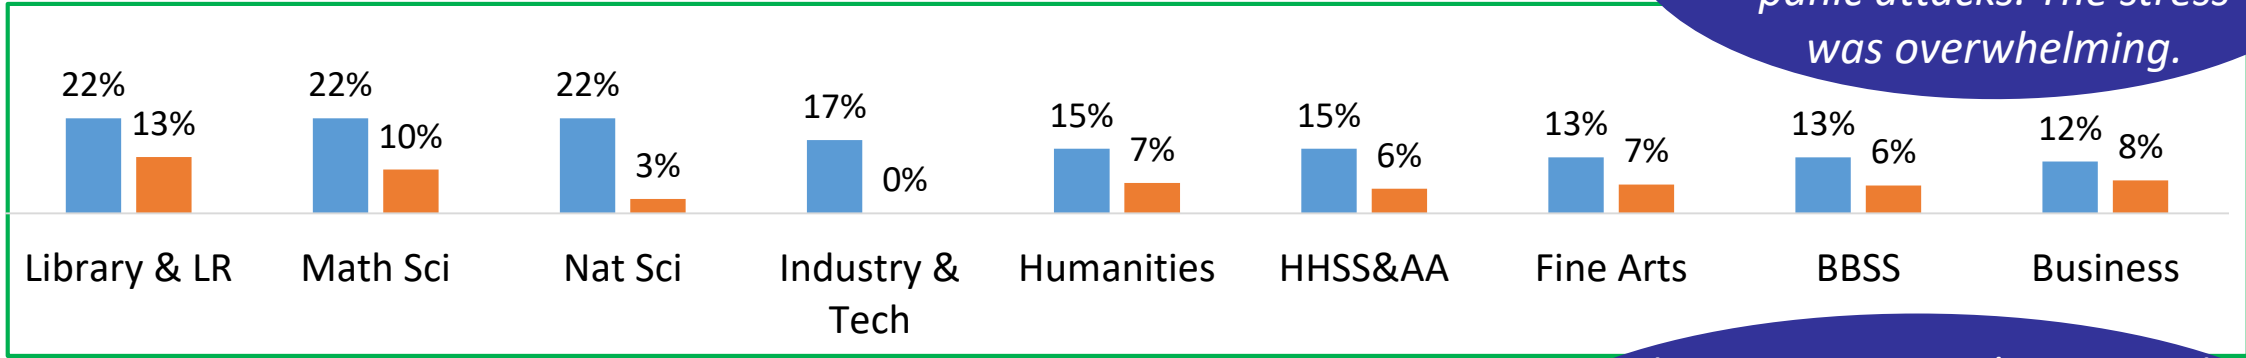

This class didn't fit me, I never studied Algebra and I told my counselor that when we were adding my courses. I told her I need to start from the beginning in Algebra otherwise I won't understand, and it's what happened.

Responses by Topic

Online Learning

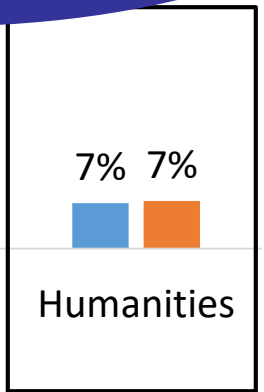

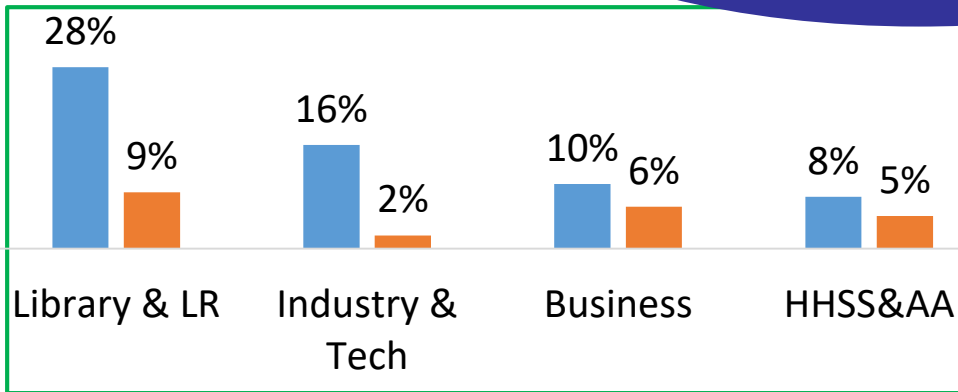

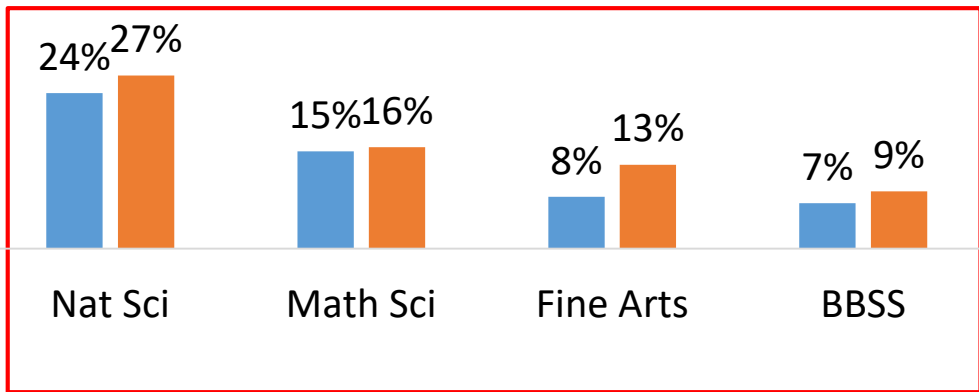

The difficulty of taking this class online caused loads of anxiety and panic attacks. The stress was overwhelming.

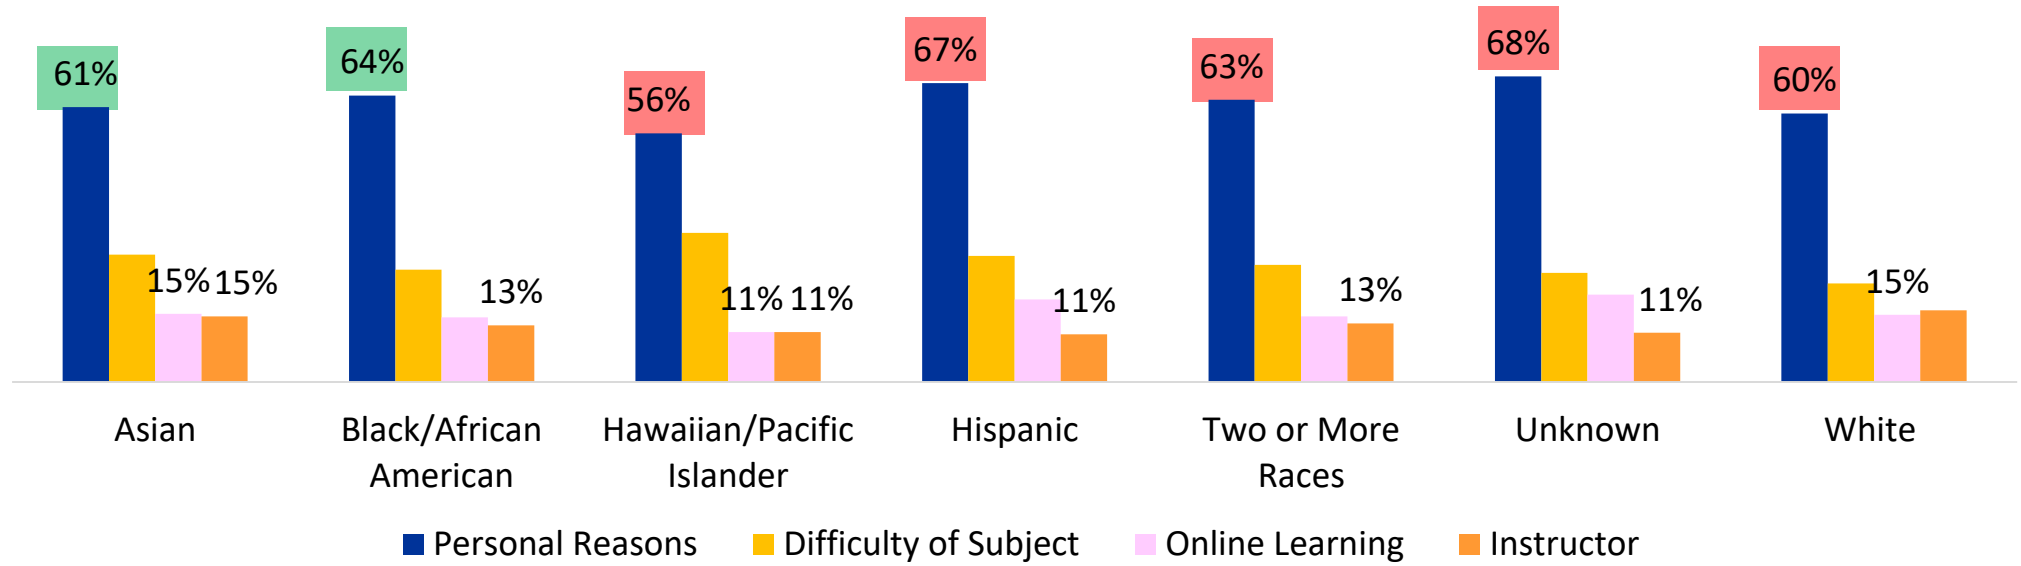

■ FA 2021 ■ SP 2022

The instructor wasn't organized and didn't have a support system for students. Never kept track of assignments and class wasn't making any sense.
