**Hybrid – Distance Education Addendums**

The CCC is currently accepting DE addendums for any class, whether or not it is up for review. All courses that we teach fully online also need a separate approval to be taught as hybrid. Any class with less than 100% of instructional time being conducted online is considered hybrid. The BSS Curriculum Committee agreed that: 1) We will file a DE addendum for any BSS class that is taught online and still needs to be approved for hybrid. 2) Beverly will email everyone a copy of the approval form and the rep from each department will add the information for their classes to the form. There needs to be a separate form saved on a separate file for each class. The reps will email all the completed forms for their department to Beverly and Janet. Thank you everyone for chipping in and completing the work for your department.

Approved by the Division Curriculum Committee with typo corrections on p. 13 and the agreement to remove “American” and replace it with United States or with nothing (American would be implied).

SOCI AA (reactivate, SOCI 102 descriptive title change, new SOCI classes added, SOCI 102 descriptive title change) The committee discussed the possibility of reviving the Sociology AA degree in order to allow for more flexibility for students.
