### **New and Non-credit courses update**

- New support course that was added: Math 190S
- New course renumbering, STAT-C1000 still appearing as Math 150 for statistics. The change has not happened yet. They want to store the result as the previous one, they are trying to figure out a way to link the results, but as of now they are appearing as 2 different courses. It is still being figured out to combine the results together. It is being worked on.
- These course are not entered in Nuventive at the moment.
- New courses will be assessed in Spring 2026.
- The non credit courses, for example, the Math Academy courses are now being covered under the library now and are also not in Nuventive.

These courses issues are being worked on and as of now we not need to do anything.
