1. Agenda:

Review minutes of 5/6/25 meeting

2. Course Update:

Math 190/190: Per Gordon, during phase II the course renumbering deadline is end of fall 2025

3. Course Review:

a. From Last semester:

- CS 17 @ Tech Review level
- CS 14, 99

b. This Fall

- Eng 11 &12: Pavan was informed 5/13/25
- Math 120/12S, 130, 140: Ben and CM2 were informed 5/13/25
- Math 60: Oscar and Committee D were informed 5/13/25
- CSCI 8, 16, 3, 7: Solomon and CS were informed 5/13/25

Review minutes

S. Russell motioned to approve the minutes, G. Song second. All in favor to approve the minutes from May 6, 2025.

Course Update:

Math 190/190: Per Gordon, during phase II the course renumbering deadline is end of Fall 2025.

D. Eldanaf shared the link to the Common Course Numbering Templates.

- DCC members were looking through the website to determine the correct template for Math 190 and Math 190S.
- The new CM 1 chair is now Oscar Villareal
- D. Eldanaf will reach out to O. Villareal to get started with the course renumbering process.
- G. Song will check with CCC about the minimum unit Threshold being 4 semester units on the template for the support section.
- M. Lemons mentioned that possibly the standard form must be the correct template to be used twice and not the one that was discussed earlier, but they will discuss with O. Villareal.

Course Review:

From Last semester:

- CS 17 @ Tech Review level
- CS 14, 99 Currently at faculty review level

Dean's Remarks:

As long as Math 60 is running, there must be a Comm D unless we merge work of comm d into another division.

It was suggested to have a discussion and the next department meeting to discuss if Math 60 should continue to be in Committee D or if it should merge with another committee.

Dr. Lemons agreed with the open discussion but would like for a decision to be finalized after the discussion by voting, if faculty does not feel comfortable voting in person, the vote can be moved to a ballot form in the division office.

There is interested form nursing to create a non credit math prep course to prepare for their dosage calculation course. Dr. Lemons will bring this up as an item at the next department meeting.

Dr. Lemons will also add another item to the next department meeting, automotive technology, to see if faculty would like to teach math courses for automotive technology students.
