Homeland Security Spring 2016 Courses

With over 250,000 federal positions in Homeland Security and associated divisions, students may find good career opportunities in this field.

Explore Careers in Homeland Security, Intelligence, and Emergency Management

Fire fighters, law enforcement, disaster workers, first responders, EMTs, paramedics, and persons wishing to work in government service can enhance and develop their knowledge with courses in Homeland Security and Emergency Management.

Homeland Security can apply to many aspects of emergency response, prevention of terrorism, disaster mitigation, disaster response, law enforcement, fire departments, first responders, emergency operations, leadership, teamwork, and hundreds of positions in city, county, state, and federal government. Development of knowledge and understanding of how this extremely large team functions and positions available is the emphasis of these courses. This instruction is a valuable supplement to any positions in emergency response and governmental service.

Courses available include:

- **Introduction to Homeland Security - AJ10 Section 7000**
- **Intelligence and Security Management - AJ11 Section 7001**
- **Introduction to Emergency Management - AJ21 Section 7061**

A certificate in Homeland Security and Emergency Management is currently under consideration for approval, which may offer students taking these far-reaching educational courses an opportunity to add an ECC specialty certificate to their resume and educational accomplishments.

Join DHS Cybersecurity

As technology becomes increasingly more sophisticated, the demand for an experienced and qualified workforce to protect our nation's networks and information systems has never been higher. The Department of Homeland Security (DHS) is currently recruiting cybersecurity professionals with the following skill sets:

- Cyber Incident Response
- Cyber Risk and Strategic Analysis
- Vulnerability Detection and Assessment
- Intelligence and Investigation
- Networks and Systems Engineering
- Digital Forensics and Forensics Analysis
- Software Assurance

Student Programs in Cybersecurity

Cybersecurity Internships

The [Cybersecurity Internship Program](#) is designed to give current students an opportunity to work alongside DHS cyber leaders. Interns are recruited from the nation's top undergraduate and graduate programs and will have the opportunity to apply concepts, protocols, and tools acquired through coursework in the real world by working side by side with experts in cybersecurity. Internships focus on mission areas such as identification and analysis of malicious code, forensics analysis, incident handling, intrusion detection and prevention, and software assurance.

National Cybersecurity and Communications Integration Center

DHS is actively recruiting dynamic cybersecurity professionals in its [National Cybersecurity and Communications Integration Center \(NCCIC\)](#) to help protect the nation's cyberspace. NCCIC is a 24x7 cyber situational awareness, incident response, and management center that is a national nexus of cyber and communications integration for the federal, state, local, territorial, and tribal governments, the intelligence community, law enforcement, the private sector, and international entities. Qualified candidates must have knowledge, skills, and experience in, but not limited to:

- Information systems and architecture design - Identifying and exploiting vulnerabilities
- Incident response - Leading teams in cyber incidents and responses
- Malware and forensic incident analysis - Information assurance
- Information security program and project management - Vulnerability scanning and penetration testing
- Reviewing proposed new systems, networks, and software designs for potential security risks
- Gathering and analyzing incident data - Evaluating security incident response policies
- Developing and implementing information systems security programs, polices, and procedures

Law Enforcement - Careers in the Federal Protective Service

The [Federal Protective Service \(FPS\)](#) is the premier provider of security and law enforcement services at U.S. federal government facilities. FPS plays a leading role in the protection of our nation's critical infrastructure, with lead responsibility for ensuring a safe and secure working environment for federal workers and visitors in approximately 9,000 federal facilities nationwide.

FPS is a leader in physical security and law enforcement operations, and it embraces a forward-leaning, strategic approach to security centered on advance planning and preparedness.

FPS Responsibilities

- Conducting comprehensive security assessment of vulnerabilities at facilities
- Developing and implementing protective countermeasures, based on the latest risk management tools and technology
- Installing alarm systems, X-ray and magnetometer equipment, and entry control systems
- Monitoring systems at federal facilities for proper performance and security breaches
- Providing uniformed police response and investigative follow-up
- Contracting for security guard services
- Performing hazardous materials preparedness and response operations
- Managing K9 explosive detection operations
- Providing critical security services and logistical support at high-profile public events
- Coordinating vital emergency services and disaster response during and after natural disasters
- Engaging federal facility tenants through crime prevention seminars, facility security surveys, intelligence-gathering operations and more

FPS Employment Offers:

- Competitive salary and benefits
- Potential for career advancement
- Positions available at [locations nationwide](#)
- An opportunity to make a difference through public service

- Military Advisor's Office
- National Cybersecurity Center
- National Protection and Programs Directorate
- Office for Civil Rights and Civil Liberties
- Office of Health Affairs
- Office of Inspector General
- Office of Intelligence and Analysis
- Office of Legislative Affairs
- Office of Operations Coordination and Planning
- Office of Policy
- Office of Public Affairs
- Office of the Chief Financial Officer
- Office of the General Counsel
- Privacy Office

About DHS

The Department of Homeland Security has a vital mission: to secure the nation from the many threats we face. This requires the dedication of more than 240,000 employees in jobs that range from aviation and border security to emergency response, from cybersecurity analyst to chemical facility inspector.

Our duties are wide-ranging, and include detection, preparation for, prevention, protection against, response to, and recovery from terrorist attacks; enhancing security; securing and managing our borders; enforcing and administering immigration laws; safeguarding and securing cyberspace; and ensuring resilience to disasters.

Our primary goal is clear - keeping America safe.

For more information about careers at the Department of Homeland Security, visit www.dhs.gov/careers.

About FEMA

FEMA's mission is to support our citizens and first responders to ensure that as a nation we work together to build, sustain and improve our capability to prepare for, protect against, respond to, recover from and mitigate all hazards.

For 35 years, FEMA's mission remains: to lead America to prepare for, prevent, respond to and recover from disasters with a vision of "A Nation Prepared."

The Federal Emergency Management Agency coordinates the federal government's role in preparing for, preventing, mitigating the effects of, responding to, and recovering from all domestic disasters, whether natural or man-made, including acts of terror.

About Cal OES

California Governor's Office of Emergency Services

With over 38 million residents (12% of the U.S. population), the State of California is the most populous state in the nation and has the third largest land area among the states (163,695 square miles). California is culturally, ethnically, economically, ecologically, and politically diverse, and maintains the eighth largest economy in the world, with 13 percent of the U.S. gross domestic product.

California also faces numerous risks and threats to our people, property, economy, environment and is prone to earthquakes, floods, significant wildfires, prolonged drought impacts, public health emergencies, cybersecurity attacks, agricultural and animal disasters, as well threats to homeland security.

Cal OES takes a proactive approach to addressing these risks, threats, and vulnerabilities that form the basis of our mission and has been tested through real events, as well as comprehensive exercises that help us maintain our state of readiness and plan for and mitigate impacts.

Cal OES History. The California Governor's Office of Emergency Services (Cal OES) began as the State War Council in 1943. With an increasing emphasis on emergency management, it officially became OES in 1970. In 2004, the California Legislature merged OES and the Governor's Office of Criminal Justice Planning, which was responsible for providing state and federal grant funds to local communities to prevent crime and help crime victims.

In 2003, with the state increasing its focus on terrorism prevention after the attacks of 9/11, the Governor's Office of Homeland Security (OHS) was established through an Executive Order by Governor Gray Davis.

In 2009, the California Legislature merged the powers, purposes, and responsibilities of the former OES with those of OHS into the newly- created California Emergency Management Agency (Cal EMA).

On July 1, 2013, Governor Edmund G. Brown Jr.'s Reorganization Plan #2 eliminated Cal EMA and restored it to the Governor's Office, renaming it the California Governor's Office of Emergency Services (Cal OES), and merging it with the Office of Public Safety Communications.

Today, Cal OES performs its broader mission by administering numerous programs that support our stakeholders, protect our communities, and help create a resilient California.

<http://www.caloes.ca.gov/>

We will realize our vision by building towards a safer more resilient California, leveraging effective partnerships, developing our workforce, enhancing our technology, and maintaining a culture of continuous improvement.

The El Camino Community College District is committed to providing equal opportunity in which no person is subjected to discrimination on the basis of national origin, religion, age, sex (including sexual harassment), race, color, gender, physical or mental disability, or retaliation.
