

## Computer Science Department Meeting

Thursday, October 22, 2015

### Agenda

1. SLO Follow-Ups
2. Curriculum - Course Reviews, New CS courses, and the Certificate of Achievement
3. New Minimum Qualifications
4. Advisory Board Agenda
5. Research Study
6. CTEA Laptops
7. Preference Forms
8. Spring Schedule
9. Summer Schedule
10. Android Course

**EL CAMINO COLLEGE MATHEMATICAL SCIENCES**  
**Computer Science Department Meeting**  
**October 22, 2015**

Present: Carl Broderick, Susanne Bucher, Greg Fry, Anna Hockman, Matthew Mata, Solomon Russell, Greg Scott, Jacquelyn Sims, Satish Singhal, Ralph Taylor, Claudio Vilchis (ITS)

**SLO FOLLOW-UPS**

Instructors should add follow-ups to any action items entered during the prior semester.

In spring 2016, the Critical Thinking ILO will be assessed.

S. Bucher will need to submit 8-10 faculty volunteers, preferably one or two from each committee, by 11/2/15. These volunteers will participate in a conference call to discuss the Critical Thinking ILO rubric and plan of action. Volunteers will then participate in a 2-3 hour meeting on 4/8/16 to discuss the results of the Critical Thinking assessment.

S. Singhal and S. Russell volunteered for the Computer Science Department.

Flex credit will be given to participants. Adjunct faculty are also welcome to participate.

This is still in the planning process.

**CURRICULUM - COURSE REVIEWS, NEW CS COURSES, AND THE CERTIFICATE OF ACHIEVEMENT**

All of the courses need to be reviewed for the CTE Certificate. The program is on a two-year review cycle.

Updates do not need to be major. Update items such as:

- a. Textbooks
- b. Format (include headings and subheadings)
- c. Include "ABC" bullet points for the lab component (can be the exact same bullet points as the lecture component)
- d. Update course learning objective
- e. Make sure there are different methods of assessment

The course review changes are to be made in CurricUNET. When entering the reason for the changes, enter "Two year CTE review cycle."

A.Hockman will send more information on how to get started.

The due date for the course reviews is 11/2/15.

Course Review Assignments:

Ralph Taylor: CS 16 and 30

Satish Singhal: CS 2

Greg Scott: CS 3 and 40

Massoud Ghyam: CS 12

**NEW COURSE PROPOSALS (PYTHON AND ANDROID)**

Python and Android were removed from consultation and comments were provided. S. Singhal announced that he already addressed each of the comments for Python and made the updates. A.Hockman will follow-up with G. Scott and S. Singhal on how/where to address each comment and how to submit.

J. Sims will contact the Dean of the Business Division regarding comments on the cross over between the Android classes.

G. Scott will rewrite the objective for the Android class so there isn't as much crossover and then have a consultation with CIS again. This will probably not be completed by 11/2/15.

**NEW MINIMUM QUALIFICATIONS**

The CS Department can follow the new minimum qualifications for CS faculty hires, or we can impose stricter requirements. The new qualifications include changes in major requirements.

S. Singhal motioned to keep the minimum qualifications as is and equivalency would still be considered. G. Scott seconded. All were in favor. It was unanimously agreed that requirements will remain the same.

The Math Division has been approved to hire at least one CS faculty to start in fall 2016.

**ADVISORY BOARD AGENDA**

The Computer Science Advisory Board meeting is scheduled for 11/6/15.

Items to include on the agenda:

- a. CTEA Grant and the items to apply for (more lab space)

- b. Overview of where the CS program is heading
- c. New courses

If there are additional items to include on the agenda, please email M. Maaza by 11/2/15.

## **ITS UPDATES**

Claudio Vilchis (ITS) provided an update on new faculty laptops/tablets and the virtual server for CS 40.

Faculty will have an option of a tablet or laptop.

The tablet will be a full computer that has the same capacity as a laptop. The tablet will also come with a keyboard, mouse and docking station with a 21 inch monitor.

The laptop option will have a 14 inch monitor and will be very similar to the current faculty laptops.

The virtual server for CS 40 was built, however, it was hacked. J. Sims requested that a new virtual server be built soon so G. Scott can work with the faculty member that will teach it next semester, E. Ambrosio. C. Vilchis will have the new virtual server built by 10/30/15.

## **RESEARCH STUDY**

The Institutional Research study on transferring for a CS Bachelor's degree was approved. All CS faculty approved J. Sims to provide the survey representatives with their contact information. The representatives will go to the CS classes and conduct surveys with the students.

## **CTEA LAPTOPS**

The CTEA laptop order is over budget. J. Sims will discuss which items can be removed with M. Ghyam, S. Singhal, and S. Russell. As an alternative option, J. Sims will also look into ways to cover the amount that is over budget.

## **PREFERENCE FORMS**

An adjunct preference form was created specifically for CS courses. Recommendation to break down the load numbers by lab and lecture since there is an option to have two labs and one lecture, or one lab and one lecture.

## **SPRING SCHEDULE**

Two CS classes are unstaffed for spring 2016. Forward J. Sims any resumes/contact information for those who might be qualified to teach.

## **SUMMER SCHEDULE**

The summer schedule will be discussed at the CS Advisory Board meeting scheduled for 11/6/15.

## Minimum Qualifications

I am resending the local disciplines list with changes that reflect the latest state disciplines list. I had the opportunity to review the list and compare it to our local list. There were a couple of areas where the state MQ had changed that we were not reflecting in our list. Remember it is possible to have a higher MQ than the state but not a lower one. Attached you will find a tracked change version of our list with the new MQ's. This list should be reviewed and approved before the next hiring round.

Those disciplines highlighted in yellow reflect disciplines where the local quals are different from the state MQs. I did add the state qualification for these disciplines to for faculty review. The new 2014 list also included the specialized areas (DSPS, EOPS, Health Center nurses) and non-credit (shaded in blue). I included them because with the work being done by AB 86, we may be hiring non-credit instructors.

### **Computer Science**

Master's in computer science or computer engineering OR Bachelor's in either of the above AND Master's in information science, computer information systems, information systems, mathematics, or engineering OR the equivalent.

State Qual:

Master's in computer science or computer engineering  
**OR** bachelor's in either of the above **AND** master's in mathematics, cybernetics, business administration, accounting or engineering **OR** bachelor's in engineering **AND** master's in cybernetics, engineering, mathematics, or business administration **OR** bachelor's in mathematics **AND** master's in cybernetics, engineering, mathematics, or business administration **OR** bachelor's degree in any of the above **AND** a master's degree in information science, computer information systems, or information systems **OR** the equivalent.

## EL CAMINO COLLEGE

16007 Crenshaw Boulevard, Torrance, California 90506-0001  
Telephone (310) 660-3593 or 1-866-ELCAMINO

October 16, 2015

Dr. LouAnn Lyon  
The Chicago School of Professional Psychology  
617 West 7th Street  
Los Angeles, CA 90017

RE: *Student's-Eye View: Transferring for a Computer Science Bachelor's Degree (#P16-16)*

Dear Dr. Lyon:

This letter is to advise you that your request to conduct research involving human subjects at El Camino College was reviewed by the El Camino College Institutional Review Board (IRB).

Pending the following changes to the consent form, your research study has been APPROVED.

1. Paragraph one of the Participant Consent Form, please modify the last sentence to: "This research study is being conducted by ETR, a non-profit organization whose goals are: <please insert information here so the type of organization you represent and its goals are clear.>"
2. Please provide a benefits statement along with the risk statement.

Approval of this study was granted on October 12, 2015, assuming satisfactory resolution of concerns with the consent form.

Approval is for a period of one year from the date of this letter and conditional upon your willingness to carry out your continuing responsibilities under College policy and Federal regulations. If you would like to continue your research after this one-year period, please submit a request to renew your research along with an annual report to the Institutional Research & Planning Office no later than September 12, 2016.

In accordance with Federal regulations and College practice, you are required to comply with the following conditions:

1. Clearly state in the header or footer of each page of your approved Informed Consent Form the approval and expiration dates of the protocol as follows: "Approved by El Camino College IRB from October 12, 2015 to October 12, 2016."
2. Inform the Director of Research & Planning in writing (email acceptable) within twenty-four hours of any adverse event in the conduct of research involving human subjects, including events affecting the security of data collected. The report shall include the

nature of the adverse event, the names of the persons affected, the extent of the injury or breach of security, if any, and any other information material to the situation.

3. Do not change your research procedure involving human subjects without written permission from the Director of Research & Planning or the Faculty Co-Chair of the IRB. Please use the Protocol Modification Form to request any changes.
4. Notify either Co-Chair of the IRB when the data gathering portion of your study involving human subjects at El Camino College has completed.

Your sponsor is Ms. Jackie Sims, Dean of Mathematical Sciences. She can assist you with contacting faculty for this study in order to distribute the survey to students in the appropriate classes. You can reach her at [jsims@elcamino.edu](mailto:jsims@elcamino.edu) or (310) 600-3593, ext. 3201.

Should you have any questions about the conduct of your research under this protocol, particularly about providing the informed consent and unexpected events, please do not hesitate to contact the Director of Research & Planning. We wish you the best of success with your research. To enhance the value of El Camino College's participation in your research, we would appreciate receiving a summary of your research findings following the completion of this study.

Sincerely,

Irene Graff, M.A.  
Director, Research & Planning  
Co-Chair, Institutional Review Board  
(310) 660-3593, ext. 3515  
[igraff@elcamino.edu](mailto:igraff@elcamino.edu)

cc: Teresa Palos, Co-Chair, IRB  
Jackie Sims, Dean, Mathematical Sciences
