From Jackie Sims, Interim Associate Dean

Computer Science Meeting, October 31

Given that there will be several absences for this meeting, we have decided to cancel the CS meeting scheduled for Thursday, October 3, 2013, 1- 2 pm.

Below please read the updates. **It is very important the you read all of the information below…**

Meeting cancelled, please read updates below
Agenda for CS meeting, Oct 31
  I.   **Funding student competition registration fees**
        a. Dr. Rapp tried desperately to secure the funds to pay for the registration fees for the student competition, AMC International Collegiate Programming Contest. However, she learned that in order to fund such competitions, the students have to be part of an official (board approved) student club at El Camino College
        b. Dr. Rapp did discuss this with Chidubem(Dubem) W Enyekwe and advised him to register the team as an official college club and perhaps future competitions may be funded and the students may even be able to use one of the campus vans for transportation.
        c. An advisor will be needed to officially form this student club as well.
        d. So, El Camino College and the Math Division will not be able to pay for the registration fees for this completion this year.
        e. The registration is due by Thursday, October 31. Here is the link [http://www.socalcontest.org/current/index.shtml] to the Southern CA regional page.

  II.   **Program Review Update**
        a. Nov. 5, 1- 2pm, meet with Academic Affairs, ADM 127
        b. Massoud Ghyam, Greg Fry, Virginia Rapp, and I will attend. More all welcomed
        c. Need to document the discussion of the recommendations from Academic Affairs
        d. Include funding the student competition in the recommendations
              i.   Have the students form a student group
              ii. Need an advisor

  III. **Articulation of some CS courses (See emails from Lori Suekawa)**
        a. CS2 did meet approval for C-ID designation and now articulates with CSULB, COMP SCI 2 - CECS 274
        b. CS1 was "conditionally" approved for C-ID designation

      i. This determination means that the course outline aligned with some, but not all areas of the C-ID descriptor

     ii. Here is the summary from the email…"Does course Content meets requirements? Answer: No Comment: Does not include Course Objective 3: Summarize the evolution of programming languages illustrating how this history has led to the paradigms available today. Course Objectives/Student Learning Outcomes meet requirements? Answer: No Comment: Does not include Course Objective 3: Summarize the evolution of programming languages illustrating how this history has led to the paradigms available today. Final Determination: Comment: Does not include Course Objective 3: Summarize the evolution of programming languages illustrating how this history has led to the paradigms available today. "

      i. You have one year from today to update/revise your course based on this feedback and resubmit it for the requested C-ID designation. Thank you for submitting your course and please feel free to contact C-ID staff at (916) 445-4753 or info@c-id.net if you have any questions

IV.   **CS Fulltime and Part=time Hire update**
   a. Paperwork has been submitted

V.   **SLO update**
   a. Greg Fry, when you have a chance, please update and/or send out the most current SLOs

VI.   **Listing of all the CS courses. What's on the website may not be current**
   a. These are the CS courses listed on department website
         i. 1, 2, 3, 4, 10, 12, 16, 23, 25, 30, 36, 40, 55, 60
        ii. Some of these courses may be inactivated
       iii. The department website needs lots of updating but while viewing it, I did come across all these listing for CS
   b. These are the CS courses listed in General Catalog
         i. 1, 2, 3, 12, 30, 40, 99abc
