

# Overview of KnowBe4 Training Modules

KnowBe4's game-changing partnerships with The Security Awareness Company, Popcorn Training, ThinkHR, exploqii, Canada Privacy Training, Twist & Shout, TeachPrivacy, Syntrio, and El Pescador allows you to significantly better manage the ongoing problem of social engineering. We offer you the best-in-class phishing platform combined with the world's largest library 1000+ security awareness training content; including interactive modules, videos, games, posters and newsletters. Think of us as the Netflix of awareness training.

To easily deliver this new content library to customers, KnowBe4 has a 'Module Store'. As a customer, you can use the ModStore to search, browse and preview content and -- depending on their subscription level -- move modules to their KnowBe4 account.

We offer three Training Access Levels: I, II, and III depending on your [subscription level](#). Because our library is constantly being updated, if you want to get a real-time view of all the great content, sign up to access the [KnowBe4 ModStore Training Preview](#) to see our full library!
