## EL CAMINO COLLEGE STRATEGIC PLAN 2004-2007

### **Vision Statement**

El Camino College will be the College of choice for successful student learning, caring student services and open access. We, the employees, will work together to create an environment that emphasizes people, respect, integrity, diversity and excellence. Our College will be a leader in demonstrating accountability to our community.

### **Mission Statement**

The mission of El Camino College is to meet the educational needs of its diverse community and ensure student success by offering quality, comprehensive educational opportunities.

### **Statement of Philosophy**

Everything El Camino College is or does must be centered on its community, for without the community, we have no students, no faculty or staff, no reason to exist. It is our community that saw the need and valued the reason for the creation of El Camino College. Therefore, it is to our community that we must be responsible and responsive in all matters educational, fiscal and social.

### **Statement of Values**

Our highest value is placed on our students and their educational goals. Interwoven in that value is our recognition that the faculty and staff of El Camino College are the College's stability, its source of strength and its driving force. With this in mind, our five core values are:

**People** – We strive to balance the needs of our students, employees and community.

**Respect** – We work in a spirit of cooperation and collaboration.

**Integrity** – We act ethically and honestly toward our students, colleagues and community.

**Diversity** – We recognize and appreciate our similarities and differences.

**Excellence** – We aspire to deliver quality and excellence in all we do.

### **Guiding Principles**

The following guiding principles are used to direct the efforts of the District:

El Camino College must strive for distinction in everything the College does—in the classroom, in services and in human relations. Respect for our students, our fellow employees, our community and ourselves, must be our underlying goal.

Cooperation among our many partners is vital for our success—whether they be other schools and colleges, businesses and industries, or individuals.

Access and opportunity must never be compromised. Our classrooms are open to everyone who meets our admission eligibility and our community programs are open to all. This policy is enforced without discrimination and without regard to gender, ethnicity, personal beliefs, abilities or background.

### **Strategic Goals 2004-2007**

1. Support and constantly improve the quality of our educational offerings.
2. Promote student-centered learning to increase student success.
3. Support innovative practices that enhance the educational experience.
4. Foster a climate that promotes integrity and accountability.
5. Support and develop effective and motivated employees.
6. Improve and enhance internal and external communication.
7. Incorporate flexibility into institutional structure and process.

**A. AB 2910 - QUARTERLY FISCAL STATUS REPORT**

It is recommended that the Board of Trustees receive the following Quarterly Financial Status Report for the quarter ending March 31, 2005.

AB 2910, Chapter 1486, Statutes of 1986, requires that California community college districts report quarterly on their financial condition.

Starting with the quarter ending September 30, 1987, and quarterly thereafter, districts are required to prepare a Quarterly Financial Status Report, certified for accuracy by the district chief executive officer and chief business officer, and present this report to the governing board. The report is to be reviewed by the District governing board at a regularly scheduled meeting and entered into the minutes of the meeting. Within five working days following the governing board meeting, the fiscal year status report and a copy of a report of the district's financial condition are to be submitted to the Chancellor's Office and the County Superintendent of Schools. The quarterly reports will be reviewed and districts will be notified if further action is necessary.

The report for March 31, 2005, is shown on the following Quarterly Financial Status Report.

**B. PROJECT BUDGETS**

The Facilities Needs Report prepared May, 2002, established preliminary budgets for the renovation or replacement of the buildings reported in the categories identified in the following listing. The needs report was the basis for determining the amount of bond funding required to complete the facilities upgrade/modernization program. The preliminary budgets were revised February 17, 2004, when project scopes and timelines were further defined. Budgets were also revised as of May 16, 2005. Also included in the needs report was a listing compiled by division of equipment and technology that needed to be replaced or upgraded.

The following table reports expenditures through April 28, 2005.
