EL CAMINO COLLEGE STRATEGIC PLAN 2007 THROUGH 2010

Vision Statement

El Camino College will be the College of choice for successful student learning, caring student services and open access. We, the employees, will work together to create an environment that emphasizes people, respect, integrity, diversity and excellence. Our College will be a leader in demonstrating accountability to our community.

Mission Statement

El Camino College offers quality, comprehensive educational programs and services to ensure the educational success of students from our diverse community.

Statement of Philosophy

Everything El Camino College is or does must be centered on its community. The community saw the need and valued the reason for the creation of El Camino College. It is to our community that we must be responsible and responsive in all matters educational, fiscal and social.

Statement of Values

Our highest value is placed on our students and their educational goals. Interwoven in that value is our recognition that the faculty and staff of El Camino College are the College's stability, its source of strength and its driving force. With this in mind, our five core values are:

People – We strive to balance the needs of our students, employees and community.

Respect – We work in a spirit of cooperation and collaboration.

Integrity – We act ethically and honestly toward our students, colleagues and community.

Diversity – We recognize and appreciate our similarities and differences.

Excellence – We aspire to deliver quality and excellence in all we do.

Guiding Principles

The following guiding principles are used to direct the efforts of the District:

El Camino College must strive for distinction in everything the College does—in the classroom, in services and in human relations. Respect for our students, fellow employees, community and ourselves, must be our underlying goal.

Cooperation among our many partners including other schools and colleges, businesses and industries, and individuals is vital for our success.

Access and success must never be compromised. Our classrooms are open to everyone who meets our admission eligibility and our community programs are open to all. This policy is enforced without discrimination and without regard to gender, ethnicity, personal beliefs, abilities or background.

Strategic Initiatives

1. Offer excellent educational and student support services:
 - a) Enhance college services to support student learning using a variety of instructional delivery methods and services.
 - b) Maximize growth opportunities and strengthen programs and services to enhance student success.
 - c) Strengthen partnerships with schools, colleges and universities, businesses and community-based organizations to provide workforce training and economic development for our community.
2. Support self-assessment, renewal, and innovation:
 - a) Use student learning outcomes and assessment to continually improve processes, programs and services.
 - b) Use research-based evidence as a foundation for effective planning, budgeting and evaluation processes.
3. Modernize the infrastructure to support quality programs and services:
 - a) Use technological advances to improve classroom instruction, services to students and employee productivity.
 - b) Improve facilities to meet the needs of students and the community for the next fifty years.

EL CAMINO COMMUNITY COLLEGE DISTRICT
BOARD OF TRUSTEES
MINUTES OF THE REGULAR MEETING OF
Monday, August 17, 2009

The Board of Trustees of the El Camino Community College District met at 4 p.m. on Monday, August 17, 2009, in the Board Room at El Camino College.

The following Trustees were present: Trustee Nathaniel Jackson, President; Trustee Ray Gen, Vice-President; Trustee Maureen O'Donnell, Secretary; Trustee William Beverly, Member; Trustee Mary E. Combs, Member; and Mr. David Nordel, Student Member.

Also present were Dr. Thomas M. Fallo, Superintendent/President; Dr. Francisco Arce, Vice President, Academic Affairs; Ms. Jo Ann Higdon, Vice President, Administrative Services; Dr. Jeanie Nishime, Vice President, Student and Community Advancement; Ms. Barbara Perez, Vice President, Human Resources, and Dr. Lawrence Cox, Provost, El Camino College Compton Community Educational Center/Chief Executive Officer, Compton Community College District.

Minutes of the Regular Board Meeting of July 20, 2009

The Minutes of the Regular Board Meeting of July 20, 2009 were approved.

Consent Agenda

It was moved by Trustee O'Donnell, seconded by Trustee Combs, that the Board adopt the items presented on the agenda in the following areas.

Academic Affairs

Center for the Arts Presentations – 2009/2010

Student and Community Advancement

Community Education – Summer 2009

Administrative Services

AB 2910 – Quarterly Fiscal Status Reports

Notice of Public Hearing on the Adoption of the 2009-2010 Budget

Contracts Under \$76,700

Contracts Over \$76,700

*~~El Camino College Child Development Center~~

* Item pulled and no substitutions were made

Purchase Orders and Blanket Purchase Orders

Measure E Bond Fund

Category Budgets and Balances

Notice of Job Completion – Airemasters – ITS HVAC Upgrade

Notice of Job Completion – Solar Integrated – Facilities and Warehouse White Coating

Notice of Job Completion – Southland Industries – EMS Upgrade Phase 2

Notice of Job Completion – Valley Crest Landscape Development – Field Renovation Project

Purchase Orders and Blanket Purchase Orders

Human Resources

Employment and Personnel Changes

Temporary Non-Classified Service Employees

Motion carried. Student Trustee Nordel recorded an advisory yes vote.

Closed Session

Meeting adjourned to a Closed Session at 5:10 p.m.

Adjournment

Meeting adjourned at 5:52 p.m.

Maureen O'Donnell, Secretary of the Board

Thomas M. Fallo, Secretary to the Board

**EL CAMINO COMMUNITY COLLEGE DISTRICT
AGENDA FOR THE REGULAR BOARD MEETING
TUESDAY, SEPTEMBER 8, 2009**

OFFICE OF THE SUPERINTENDENT/PRESIDENT

FINAL BUDGET

It is recommended that the Board of Trustees adopt the budgets for 2009-2010 for the General Fund Unrestricted and Restricted; Student Financial Aid Fund; Workers' Compensation Fund; Child Development Fund; Capital Outlay Projects Fund; General Obligation Bond Fund; Property and Liability Self-Insurance Fund; Dental Self-Insurance Fund; Special Reserve Fund-Retiree Health Premiums; Bookstore Fund; Associated Students Funds; and Auxiliary Services Fund.

Board members, the general public and numerous college constituency groups have received this budget. A copy of the budget has been on file in the Office of the Vice President of Administrative Services since August 24, 2009, and it can also be viewed on the El Camino College Website at:

<http://www.elcamino.edu/administration/board/agendas/2008/Budget%20Book%202009-2010.pdf>

STATEMENT OF REPORT PREPARATION
Follow-Up Report
October 15, 2009

This report is written in response to the February 3, 2009 request from Dr. Barbara Beno, President of the Accrediting Commission for Community and Junior Colleges (ACCJC), for a second Follow-Up Report due October 15, 2009. The report will demonstrate the steps the College has taken to resolve recommendations 1 and 3 by the October 15, 2009 due date, and to highlight efforts made to address recommendations 2, 4, 6, 7, 8, and 9.

The report was created by the Vice President of Academic Affairs (Accreditation Liaison Officer) in coordination with the Accreditation co-chairs and other contributors. A draft report was reviewed by the El Camino Community College District Board of Trustees at the September 8, 2009 Board of Trustees meeting and the final report will be reviewed at the October 19th Board meeting.

The Accreditation Task Force consists of the following members:

Francisco M. Arce, ALO and Vice President of Academic Affairs
Susan Dever, Dean of Academic Affairs, Compton Educational Center
Pete Marcoux, Humanities Faculty and President of Academic Senate
Jeanie Nishime, Vice President of Student and Community Advancement
Saul Panski, History Faculty, Compton Educational Center
Luukia Smith, President of ECCE
Arvid Spor, Accreditation Co-Chair and Dean of Enrollment Services
Evelyn Uyemura, Humanities Faculty and Accreditation Co-Chair
David Vakil, Natural Sciences Faculty and President Elect of Academic Senate

Recommendation 1. As cited in previous (1990, 1996, and 2002) accreditation recommendations the college should complete the full implementation of its process for tracking planning, program review, budgeting, and evaluation process and complete the cycle to assure that all the departments and sites (including the ECC Compton Center) of the college participate in the program review process, and that the results of program review clearly link to institutional planning and the allocation of resources. (I.B.3; I.B.3; II.A.2.e; II.A.2.f; III.B.1; III.B.1.a; III.B.2.a; III.b.2.b)

El Camino College (ECC) has fully implemented its process to track planning, program review, budgeting, and evaluation. The college assures that all departments and areas participate in the program review process. All program reviews have been completed and the results have been integrated into the planning process and clearly link to the allocation of resources. The ECC Compton Educational Center (Center) has implemented a planning, program review, budgeting, and evaluation process that mirrors the process on the College.

Since February 2009, the college has improved its oversight of the entire planning process in the following ways: 2008-2009 plans at all sites were finalized; 2009-2010 plans were created for all programs at all sites; each plan has undergone one or more rounds of evaluation; all scheduled program reviews have been completed, bringing the college completely up to date; and all recommendations from program reviews of the past 6 years have been integrated into program plans.

The Planning Process

The annual college planning process is used in all departments at all sites. At the College, plans are divided into four area plans, each managed by a Vice President. Each area consists of units, which are managed by deans or directors. The units are made up of various programs. At the Center, the overall direction is provided by the Provost, in coordination with El Camino College Vice Presidents and Superintendent/President. Because of the smaller scale of operations, the Center's plans consist only of unit and program plans.

Appendix 1: Planning Model

At El Camino College, the first step of the cycle is the collection and analysis of data, particularly program review recommendations, to form the basis of an annual program plan. Program plan recommendations are then prioritized to form the unit plan. Prioritized recommendations from the unit plans are forwarded to each area Vice President. The Vice Presidents, in consultation with their unit managers, determine the priorities for their area and identify sources of funding such as general fund, special contract funds, block grant, and other categorical funds to create a proposed budget that addresses the priorities that are being recommended.

The Vice Presidents collaboratively review each of the recommendations made by the units to determine college-wide priorities. These rankings are shared with Planning and Budgeting Committee (PBC), an advisory body to the president, and with Cabinet for endorsement and recommendation to the Board of Trustees. A final budget is developed by the Superintendent/President and adopted by the Board of Trustees at its September meeting.

The Compton Community College District is a separate fiscal entity; however, the Center planning process and budget are under the oversight of El Camino College. Program plans are prioritized by the deans to develop unit plans, which are then presented to the Provost's Cabinet and the senior management team. This management team consists of the President and Vice Presidents of ECC, the Provost, and the Compton District Special Trustee. These plans are also presented to the CEC Budget and Planning Committee (BPC) for consultation. As at College, funding sources are identified as part of the budget development process. Senior management recommends a final budget for the Special Trustee's approval.

The College currently has 296 plans, detailing current goals and objectives as well as a record of the outcomes of prior plans. The Center has 121 plans currently in progress. Over 400 recommendations from program reviews are integrated into these plans. Plans from all locations are tracked throughout the year by the ECC Chair of the PBC to ensure that current year plans are being consistently evaluated, and that the results are used to inform the upcoming year's plan. Plans are evaluated semi-annually in a process that is embedded within the plan itself, showing a chronology of entries, and a brief evaluation of the goal or objective. Area Vice Presidents and the Chair of the PBC monitor the plan evaluations to assess progress toward completion of goals.

Appendix 2: List of Plans

Participation in Program Review

The college is on a consistent 6-year cycle of program review for all departments with all completed program reviews from the past 6 years posted on the Academic Affairs and Student Services webpages. Because of the differing facilities and demographics, program reviews are conducted separately at the college and the center; however, both sites use the same format and are on the same schedule. Program reviews in Student Services at the Center began in 2007. In the Academic Affairs area, the Center began conducting program review using the El Camino College methodology during 2008-2009.

In 2008-2009, as scheduled, twenty academic affairs programs (twelve at the college and eight at the Center) conducted program reviews, and all completed reviews are posted online. Of the 64 academic programs at the college, eight conduct annual program review and all have either conducted program review between 2005 and 2009 or are conducting program review this year. There are no programs that are out of compliance with a six-year review schedule. Program reviews in all other areas of the College are current as scheduled. A program review timetable for all locations and all areas showing the last date of program review and the next scheduled date has been developed and published.

Appendix 3: Program Review Timetables

Recommendations from all new program reviews are included in program plans. Program reviews that were conducted in the last six years have been reassessed for currency, and all relevant recommendations are included in program plans.

Allocation of Resources

The college has used program plans as the basis for allocating resources since 2004. The PBC at the College and the BPC at the Center review funding requests annually and make recommendations for funding to the President and Provost respectively, followed by Board approval of funding. In 2008-2009, 141 program, unit, and area plans were developed and posted at ECC. Additionally, 72 plans were developed and posted at the Center. Approximately one-third of the plans created required no funding. Of the remaining two-thirds, a variety of sources were used to fund as many prioritized program plans as possible, including the General Fund, Block Grant, Basic Skills and CTE funds. As an example, approximately \$500,000 of Instructional Block Grant funding was available for equipment this year. A detailed list of priorities by division was created, indicating specific plans being supported. These amounts were allocated in March 2009.

Appendix 4: Funded Plans

Additionally, in 2009-2010, the college committed \$130,000 in new one-time funding based on unit plans that were developed through program review and the prioritization process. Also, \$216,000 in additional on-going funding was budgeted based on needs identified in the planning process described above. \$336,000 was allocated to address specific retention plans found in the Enrollment Management Plan and the program plans.

The most significant expenditure of general fund resources is salaries and benefits, constituting approximately 85% of the budget. For any new certificated or classified position to be considered, the request for the position must be a part of the program, unit, or area plans. In spring 2009, nine new classified positions were filled, and 11 are being recruited in fall 2009, all based on the planning process described above.

The hiring of fourteen new faculty members for academic year 2008-2009 and eleven new faculty members for 2009-2010 clearly shows the linkage between program review, planning, and allocation of resources. For example, in fall 2007, the accounting department in the business division completed their program review and noted the need to hire additional faculty members. This request is reflected in Plan 134, Objective 3.1, which requests replacement of three faculty members who retired. This information informed the collaborative faculty prioritization process and resulted in the hiring of a new faculty member starting in fall 2008. Similarly, the art department also noted in their 2008 program review that an additional faculty member was needed. This need is noted in Plan 121, Goal 2, and the faculty member was hired for fall 2008. The chemistry department included a request for additional faculty members in their 2008-2009 program review. This became Objective 1.1 in Plan 15, and two new chemistry instructors were hired to begin teaching in fall 2009. Nursing noted the need for two additional faculty members in their spring 2009 program review. This is Objective 3.1 in Plan 26, and resulted in the hiring of two new nursing instructors to begin in fall 2009.

Evidence of the effective planning and budgeting process at El Camino College is the fact that the college has avoided lay-offs or furloughs of any permanent employees, and that the college has been able to fund 25 new faculty positions in the past two years while maintaining a healthy reserve. Effective planning has also enabled the Compton Educational Center to experience significant enrollment growth over the past three years of its partnership with El Camino College, allowing the Center to achieve a balanced budget and a 10% reserve.

Conclusion

The college has fully implemented a process to track planning, program review, budgeting, and evaluation, and uses these processes throughout the institution. The college has reached the level of sustainability for program review and planning according to the Rubric for Evaluating Institutional Effectiveness published by the ACCJC. The college uses ongoing and systematic planning and evaluation. Program review is a key component of the planning process, and the linkage between program review, planning, and allocation of resources has been clearly demonstrated.

Recommendation 2. The college should immediately define and publish a timeline in respect to how it will develop and implement student learning outcomes at the course, program and degree levels, establish systems to assess student learning outcomes and use the results of such assessments to make improvements in the delivery of student learning, to ensure the College shall attain, by 2012, the level of Proficiency in the ACCJC Rubric for Evaluating Instructional Effectiveness—Part III: Student Learning Outcomes. The college should immediately implement processes to communicate to students expected student learning outcomes in course outlines, course syllabi, college catalog and/or other effective channels (II.A.1.a; II.A.1.c; II.A.2.a-b; II.A.2.f; II.A.6)

The college has created and published a timeline for the development and assessment of student learning outcomes at the course, program, and institutional levels. Furthermore, the college has established systems to use the results of the assessments to improve delivery of student learning. The college is communicating the expected student learning outcomes to students through several channels. As a result, the college is well-positioned to achieve Proficiency as defined by the ACCJC Rubrics no later than 2012.

Development and Assessment of Student Learning Outcomes

The college has been engaged in the process of developing student learning outcomes since 2004, when an SLO Task Force was created. Beginning in Fall 2006, the college created three faculty coordinator positions, two from instruction and one from student services, and an Assessment of Learning Committee (ALC) with representatives from instructional areas, student services and the Center. Members of the ALC serve as the liaison to their areas and exercise leadership to help faculty and staff develop SLOs. The co-chairs and the ALC led the initiative to train faculty members to develop and assess SLOs at the course and program levels. The college provided workshops, one-on-one training and assistance, several Assessment of Learning Weeks, SLO-related conference attendance, and SLO college web resources to teach faculty and staff skills needed to assess SLOs. As a result of these efforts, faculty and staff were trained to use SLO assessments to improve student learning in their courses and programs.

Furthermore, institutional or degree level student learning outcomes, known as Core Competencies, were developed by the ALC through campus-wide consultation and were approved in early 2007. As faculty members develop Student Learning Outcome statements and assessment plans, they align them to program and institutional level SLOs. As a result, the outcomes are clearly linked from the course to the program and institutional level.

Appendix 5: Core Competencies

Since August 2008, the campus has had a timeline for writing and assessing SLOs at the program and course levels. In December 2008, each faculty discipline developed a timeline for course and program level SLOs. As of spring 2009, each discipline created a complete set of program learning outcome statements. One unique feature of SLO development at El Camino College is that assessment plans are included in the development of the SLO statement. Assessment takes place on an ongoing basis. Depending on the size of the program (based on the number of faculty members) two to four course level SLO assessments per program are completed each academic year. To date, 505 courses have one or more SLOs. In student services, 27 programs have completed SLOs.

Appendix 6: SLO Timeline

Implementation of Timeline

The timeline created by the Assessment of Learning Committee reflects the faculty's commitment in reaching proficiency by June, 2011 in creating, aligning, updating, assessing, and reporting course-level and program-level SLOs. This is ahead of the ACCJC requirement that colleges meet the proficiency level by 2012. Faculty members are completing their SLO statements and assessment plans for each course and program. Staff have already assembled SLO statements and administered at least one assessment cycle. By December 2009, each faculty discipline will have created student learning outcome and assessment plans for all courses regularly taught at the College. Plans are being developed to create student learning outcomes for courses that are only taught by adjuncts. By June 2010, a complete set of assessment plans will be published for every course and at least one SLO assessment report will be published for every program. In addition, each instructional program continues to assess between 2 and 4 courses per year; programs will assess one program-level SLO per year beginning in academic year 2009-2010. A minimum of one course assessment report for regularly offered courses will be completed by December 2010.

Faculty groups will integrate this timeline into a six-year cycle for program learning outcome assessments in conjunction with curriculum review and program review cycles. At that point, the college will have achieved a sustainable cycle. Each December the focus will be on course SLO assessment reports, and each June the focus will be on program-level SLO assessment reports

The timeline also details a concurrent plan to assess the Core Competencies (degree-level SLOs.) A six-year core competency assessment rotation will be established by December 2009 and an assessment plan will be published. Data will be collected for this first assessment by June 2010, and a full assessment plan for all Core Competencies will be published. The report for the first assessment will be shared and discussed in Fall 2010 at the Assessment of Learning Week. The college will achieve sustainability by June 2011. Each core competency assessment cycle will involve a three-semester process: in the first semester, the assessment plan is developed; the second semester, data is collected; the third semester, the data is reviewed and reflected upon and a report written and published. These cycles will overlap so every college core competency will be assessed once every six years.

The timeline provides a formal plan for the campus community (students, public, faculty, and administration) to be provided with outcome statements and assessment information for all courses, programs, and certificates. Assessment results will be published as appropriate. A team of faculty, staff, and administrators is working toward institutionalizing all areas of the SLO faculty-driven process. The plan calls for continued and consistent SLO development that is institutionalized through adequate resources. Adjunct faculty will continue to be integrated into the campus SLO process through the academic senate, college SLO committee, the administration, and the ECCFT.

To support this work, the college has allocated funding for an SLO faculty coordinator position to provide leadership and continuity. The college is currently creating an SLO database, which will be published for access by the entire campus community. Discussions of SLO assessment

results with regards to course review, program review, planning and budget decisions, along with other collegial consolation committees, continue to occur with faculty, staff, and administration. Faculty and administration, with support from the Faculty Development Office, will provide ongoing professional development on assessment techniques and results. Faculty include SLO and assessment work within their self-evaluations.

Results of Assessment

The goal of the entire student learning outcome process is to analyze results and use them to improve student learning. Several examples can be provided that illustrate this objective.

The Chemistry Department completed a course-level SLO cycle for every course in the department by spring 2009. In addition, they wrote their first program-level SLO and assessed and analyzed the program-level SLO in fall 2008. The course-level SLO, "Equation Writing," is integral to every chemistry course. Four courses were assessed and analyzed: Chemistry 20, Chemistry 4, Chemistry 7A, and Chemistry 7B. The results indicated that students are adequately prepared in the topics of chemical nomenclature, identifying reaction types, and predicting the products of chemical reactions. To maintain this level of success, it was recommended that El Camino College and the Chemistry Department continue to provide an excellent array of support services for students, including Learning Resources Center tutoring and MESA program workshops and tutoring for appropriate courses. The first program-level SLO, "Laboratory Safety," gauged student compliance with the ECC chemistry safety policy. Sections of Chemistry 20 and Chemistry 4 were assessed twice during the semester to track changes in compliance over time. The Chemistry Department concluded that the SLO process is having a positive impact on the department.

The English department conducted a comprehensive assessment of SLOs for writing courses between Fall 2006 and Fall 2008. The assessment was conducted in five writing classes, English B, A, 1A, 1B, and 1C, and was inspired by instructors' impression that increasing numbers of students were not adequately prepared for English B, A, and 1A, and the possibility that English C (a lower level writing course) should be re-instituted and that an exit test should be established for English A. SLOs and rubrics for English A and AX (the ESL version of English A), and 1A and 1AX (the ESL version of English 1A), were collaboratively written during a series of workshops held in Spring 2007. SLOs and rubrics for English B, 1B, and 1C were collaboratively written by instructors during breakout sessions on Flex Day in Spring 2008. A large number of essays were collected, using a randomized format to assure reliability: 64 essays from English B, 78 from English A, 24 from English AX, 124 from English 1A, 41 from English 1AX, 60 from English 1B, and 72 from English 1C, a total of 463 essays.

A total of 46 instructors, both full- and part-time, from the College and the Center, participated in the norming and assessment sessions. An analysis of the outcomes showed that in English B, 78.3% of students satisfied the current SLO criteria. In English A, 73.8% of students satisfied the criteria and English AX, 72.5% did so. In English 1A, 71.9% of students satisfied the criteria, with 76.8% doing so in English 1AX. English 1B showed satisfactory results for 74.1% of students, and in English 1C, 78.8% of students satisfied the criteria.

The writing assessment process itself led to considerable self-reflection and dialogue among those faculty members who participated in the evaluation process. The results of the assessment were presented to English and ESL faculty in Fall 2008, and have resulted in dialogue, reflection, and improvements in individual planning and instruction. These results have informed the revision of curriculum. The process was robust and generated both useful data on which to base future decisions and an opportunity for instructors to work collaboratively to improve learning and teaching. The rubric that was created for use in SLO evaluation has been included in the customized textbook that is used throughout the writing sequence. A second SLO assessment cycle is beginning in Fall 2009, with essays being collected at the end of Fall 2009 and scoring taking place in Spring 2010.

In the Fall 2007 semester, the Student Development Office chose to assess the SLO statement: “By participation in student government students will be able to facilitate a group meeting using parliamentary procedure.” After analyzing pre and post tests, the Director of Student Development found that testing students’ knowledge of important terms did not necessarily mean they understood the concepts. Assessing his SLO led to changes in the way he presented the information to his students. He incorporated role playing and distributed a parliamentary procedures glossary and found these practices aided in students’ complete comprehension of key terms.

Throughout the college, the results of assessments are included in the planning process and program review. Each program review includes course SLOs and the results of assessment. Program review is used to develop recommendations that arise from assessing Student Learning Outcomes.

Communicating Student Learning Outcomes to the College Community

Course level student learning outcomes are posted on the college website and included in course syllabi. Faculty members are required to include SLOs on each syllabus and to send a copy of the syllabus to their Division office at the start of each semester. In addition, a database of all course level student learning outcomes is being created and posted on the Academic Affairs webpage. The institutional level SLOs, known as Core Competencies, are posted on the webpage of the Academic Affairs office. Student Services created large SLO statement posters for each program which are displayed in clear view for students to read. The SLO statements are also posted on department and SLO webpages.

Achieving Proficiency

The college has authentic assessments in place for courses and programs and is developing assessments for degrees based on the Core Competencies it has defined. The results of assessments are being used for improvement at the course and program level, and will affect institution-wide improvements as well. There has been and continues to be widespread dialogue in creating student learning outcomes, assessing them, and reflecting on the results, and decision-making in response to these assessments inform department planning when appropriate. Resources have been allocated to support the development of processes and support services to integrate learning outcomes into every aspect of the college. Reports are made available on the college portal. Course outcomes are aligned to program outcomes and to degree-level Core

Competencies. Finally, students are made aware of the expected outcomes of the courses and programs in which they enroll.

Conclusion

The college has made consistent progress in developing and assessing student learning outcomes at the course, program and institutional level and is using the results of such assessments to improve student learning. By continuing to implement the plans and processes currently in place, El Camino College will attain Proficiency in using student learning outcomes to improve its effectiveness as described by the ACCJC Rubric by 2012.

Recommendation 3. The college should revise its curriculum review processes and cycles so that all curriculum across the college is reviewed consistently, that the cycle of review assures the currency of the curriculum, and that the curriculum review and program review processes are integrated so that an important element of program review (the determination that program curriculum needs revision, addition or deletion to remain current) will be part of the actual program review process. (II.A.2; II.A.2.a; II.A.2.b; II.2.A.2.c; II.2.A.2.d; II.A.2.e)

El Camino College has met the recommendation to revise the curriculum review process to assure that all curriculum is reviewed consistently on a six year cycle linked to program review. Faculty, staff, and administration have worked together to implement an efficient and sustainable curriculum review and program review process.

Revising Curriculum Review Process and Cycle

In response to Recommendation 3, the Office of Academic Affairs analyzed the El Camino College curriculum database. This analysis showed that of the 1,322 courses in the curriculum, approximately half had not been reviewed within the previous 6 years. The college took immediate steps to bring all courses up to date by December 2009 and to create an efficient and sustainable curriculum review process that is integrated with program review.

The College Curriculum Committee (CCC), in cooperation with the Office of Academic Affairs, developed a two-track approach to curriculum review in order to increase efficiency. The format includes technical review by the Division Curriculum Committee (DCC) and either Standard review or Comprehensive review at the College level. The Standard Review Sub-committee reviews courses being inactivated and those with minor changes and then submits the courses as a consent agenda to the full CCC for review and approval. Comprehensive review by the full CCC is required for all new courses, distance education versions of courses, and courses with pre- or co-requisites, recommended preparation, or enrollment limitations, changes to discipline, unit, or faculty load, lecture or lab hours, degree applicability or transfer status, and changes in AA/AS degree requirements, majors, and certificates. This two-track approach has greatly facilitated the work of the College Curriculum Committee.

In addition, the Office of Academic Affairs and the CCC developed a plan to review course proposals during June, July, and August. The Standard Review Sub-committee scheduled four meetings during the summer. Courses reviewed over the summer were presented to the full CCC at a meeting held August 13, 2009. Deans and faculty responded with alacrity and prepared a large number of courses for review. One factor that contributed to the efficiency of course review is that six faculty workshops on the course review process were conducted this year by the CCC chair. Two of these workshops were held at the Compton Educational Center and four were on the College. The workshops were well-attended and assisted faculty in preparing their courses for review at the DCC and CCC level.

These improvements to the curriculum review process resulted in 237 courses being reviewed during Spring 2009. An additional 288 courses were reviewed and updated during the summer. Another 182 courses will be reviewed during Fall 2009. A total of 162 courses that have not been taught within a three-year period have been inactivated in consultation with discipline groups.

Thus the entire backlog of courses will be resolved by the end of Fall 2009 (see Table 1). An additional 60 courses that are due for review in the 2009-2010 academic year have also been included in the College Curriculum Committee calendar.

Table 1: Schedule of Course Review

Division	Spring Course Review	Summer Course Review	Fall Course Review	Inactivations	Currently Within Review Cycles	Out of Compliance	Total
Behavioral and Social Sciences	46	14	0	7	100	0	167
Business	24	11	22	15	31	0	103
Fine Arts	51	102	11	14	74	0	252

Natural Sciences	20	24	1	1	40	0	86
TOTALS	237	288	182	162	453	0	1,322

Integration of Course Review in Program Review

Program review has been strengthened, and the linkage to course review has been fully integrated into all program reviews. During the 2008-09 school year, program review was completed in 12 instructional programs. These reviews include an analysis of all courses taught and recommendations for inactivations and additions. Each program review also includes a comprehensive review of student learning outcomes for the courses in the program. Program reviews are posted on the Academic Affairs webpage.

Programs that are part of the Career and Technical Education area will begin this year to conduct a program review every two years, using a format developed by the Los Angeles Orange County Workforce Development Leaders.

The Role of Program Review in Assessing Program Quality and Planning

An example of the role that program review is playing in planning and improvement can be seen in the Film/Video program. In response to program review, several courses were revised based on input from and adjunct faculty members regarding curricular needs. The major is being

revised, with the changes being presented to the CCC in Fall 2009. SLOs were developed for all Film/Video courses including those taught by part-time faculty. The first assessment of a course SLO was completed in December 2008 in Film/Video 22, and program level SLOs are currently being developed. Two new courses are being developed as a result of consultation with faculty at California State University Long Beach. These courses, History of Broadcasting and Media Aesthetic, will be transferable and degree applicable.

Program review was instrumental in allocating College resources to improve student learning in the Film/Video program. In response to program review and Advisory Committee recommendations to keep equipment current with industry standards, additional instructional equipment has been purchased using special contract funds. This purchase is in addition to the \$98,000 VTEA grant 2 years ago that brought the program's editing facilities up to industry standards. In keeping with program review recommendations, faculty members are also applying for VTEA funds to further augment their program's production infrastructure.

Another example of the role that program review is playing in curriculum development can be seen in the Art department. As a result of program review, the art section of the college catalog was updated to include a clear statement of goals and student outcomes and to clarify department requirements for the various areas of specialization, including a recommended sequencing of courses for each certificate. A new course, Art 109, Contemporary Art in World Cultures, was created and approved, and Art 1, Art in Modern Life, was revised. Art 150 and Art 151ab were cross-referenced with Photography 150 and 151ab respectively, and digital arts course outlines were revised to eliminate equipment specific references since computer-related equipment changes frequently. Curriculum objectives and AA degree requirements were reviewed and updated for the digital arts. In response to a student survey, a scheduling grid for studio courses was adopted to minimize conflicting start and end times, providing students with greater enrollment options.

Changes that required the allocation of College resources were also made as a result of program review in the Art department. A Graphic Design instructor was hired and a vocational Graphic Design Certificate Program was created. A drawing instructor was hired to coordinate the multi-sectioned basic drawing course, Art 10ab, and to assure consistent student outcomes. A lab technician was hired to scan and oversee a digital archive of instructional resources. Substantial improvements in facilities have also resulted from program review. Renovations were made in the Art and Behavioral Science building to relocate the Photography program into the Art department facilities in fall 2009. Also beginning in fall 2009, the art department computer lab/work room will be equipped with automated printing equipment that will provide high quality printing service for students and faculty. The department has created a proposal to make the printmaking lab a non-toxic, user-friendly, and environmentally safe facility. Finally, due to increased enrollment and program growth, a fourth classroom for art appreciation and art history is being renovated.

Program review has also led to changes and improvements in curriculum in the Human Development department. Faculty noted that one of their courses was designed specifically for student athletes and recommended reviewing this course, in consultation with faculty at the Torrance and Compton sites, for possible deactivation. As an alternative, a dedicated section of

another course to meet the needs of athletes will be developed. A recommendation was made to develop a career planning course and a service learning course and to consider deactivating the Cooperative Career Education-General Work Experience. In addition, the possibility of developing linked courses with faculty in other disciplines in Behavioral and Social Sciences was explored. The recommendations developed through program review in Human Development are being used to improve student learning and to strengthen the program in notable ways.

The Reading discipline's program review is indicative of the way the program review has continued to be used to improve curriculum development. A recommendation was made to consider the feasibility of a reading course designed to meet the needs of those students with very low scores on the reading placement test. Based upon research data, the department determined that such a course would meet student needs, and as a result, they revised the curriculum, updating and re-numbering two existing courses and reactivating and revising a lower level class to provide more instruction and support for students with the greatest needs. The new curriculum has been successfully implemented, with 7 sections of the new English 80 reading class scheduled in Fall 2009, in addition to 33 sections of English 82 and 33 sections of English 84.

Other program reviews have led to similar analyses and recommendations as well. The Economics department proposed creating a new course in Global Economics, and the Psychology department recommended creating four new courses, including Psychology of Gender and Chicano Psychology, to meet the needs of the changing student population. The Foreign Language department recommended developing courses in Intermediate Chinese and Spanish for the Professions, and offering a 4-unit cinema course for each language taught in the Foreign Language department such as "Topics in Italian Cinema," "Social and Cultural French Cinema," and "Heritage of Hispanic Cinema." They also inactivated German 4, 5, and 24, and French 35 (Francophone Literature in Translation) in 2008-2009 due to insufficient enrollment. In the Administration of Justice program, a new course in Crime Scene Investigation was implemented and is being offered in fall 2009, and a second new course is being developed in response to program review recommendations. An online version of AJ 100 has been created and is being offered. A decline in enrollment in evening classes was noted, and in response, two Saturday classes were added to the schedule for fall.

At the Compton Education Center, the entire curriculum was reviewed and compared with offerings at the Torrance campus, and over the last three years the CCC has approved approximately twenty-four courses and two certificate programs: one in Commercial Music and one in Licensed Vocational Nursing. Courses in such disciplines as psychology, ethnic studies, fire technology, and child development have also been adopted by the CCC in response to curricular review at Compton. Plans are now under consideration to establish a Certificate of Competency for the non-credit ESL program, and Systems Office approval has been requested for a non-credit ESL course approved by the CCC to help students pass the citizenship exam. Career and Technical Education has re-established a Machine Technology program in response to industry demands.

The program review process is strong, enabling faculty and administration to integrate program review, curriculum development, student learning outcomes, and planning and budgeting. The

results of program review are used systematically across the College to improve the educational opportunities offered.

Conclusion

The college has revised its curriculum review process so that curriculum across the college is reviewed consistently. The college has created a system that enables it to sustain a six-year review cycle to maintain the currency of the curriculum. Curriculum review and program review processes are integrated, and an important element of program review is identifying courses that need to be revised, added, or deleted. Decisions about the allocation of college resources are based on recommendations made in program review.

Recommendation 4: The college needs to assure that online courses and programs are consistent in meeting the same level of rigor as on campus programs, that all services available on campus are available online, that student learning outcomes are incorporated into these offerings and that this information is clearly communicated to students taking these courses. (II.A.1.b; II.A.2; II.A.2.a.2; II.A.6; II.A.7)

The College assures that online courses meet the same level of rigor as face-to-face courses that support services are available to online students, and that online courses adhere to the same learning outcomes as their face-to-face counterparts. The college communicates information to online students through several channels.

The Distance Education Program

Online courses, as part of the Distance Education (DE) program, are coordinated by the Learning Resources Division, one of nine academic divisions of the college. The Distance Education Office ensures that a high level of quality is maintained in the courses, including adherence to institutional and state policy and regulations regarding this delivery method. The Distance Education Advisory Committee (DEAC) is an advisory body that works closely with the Academic Senate and the college and division curriculum committees to ensure continuous improvement of the online program. The committee includes faculty from all academic divisions, including the Center, the Director of Learning Resources, the Distance Education Coordinator, an Academic Dean, staff from the DE Office, and representatives from the College Curriculum Committee, Special Resource Center and Counseling.

Curriculum for Online Courses

Online courses use the same course outline and course objectives as on-campus courses. All courses taught online are also available in face-to-face versions. Before a course is taught online, the online delivery method must be approved by the College Curriculum Committee. Information is provided regarding (1) methods of regular effective contact between instructor and student, (2) methods of evaluation (3) how and where examinations are administered, and (4) whether the text and other materials are the same as those used in the on-campus delivery.

The Division Curriculum Committee (DCC), which includes at least one faculty member who teaches online, reviews the proposal to offer the course online. If approved by the DCC, the course outline with the distance education addendum is forwarded to the Campus Curriculum Committee for review. Upon approval, the course proposal is adopted by the Board of Trustees and then sent to the State Chancellor's Office. As student learning outcomes (SLOs) are developed for courses and programs, they also apply to courses taught online. Instructors of both face-to-face and distance education courses are required to include objectives and SLOs in their syllabi beginning no later than Fall 2009.

Faculty Training

Before instructors are scheduled to teach online, they must provide evidence of certification. Online teaching certification requires completion of an 18-hour hybrid course entitled *How To Teach Online: Building Content*. This training course includes concept mapping, designing online modules, preparing learning objects, online learning activities and course management system options.

Services to Online Students

El Camino College is committed to providing online services comparable to those offered to on-campus students. The following services are available online: application, orientation, counseling, financial aid, and the library catalog and databases including 2,500 e-books. Online students are able to order their online textbooks through the campus bookstore and have them delivered. Approximately two-thirds of ECC students who take online classes are also enrolled in on-campus classes. Online students can access tutoring services on campus, and some online courses include tutorial support through textbook publishers. Online office hours are also available to students taking online courses. The faculty contract for 2007 through 2010 encourages all faculty members to hold at least one office hour per week online, and the majority of instructors teaching online do so. Students communicate with instructors and fellow students through chat rooms, email, and private messages, providing ample opportunity for communication and support.

Student Orientation

To help prepare students for the unique challenges of online learning, on-campus orientation sessions for classes taught online are provided for most courses. For Fall 2009, required meetings are listed for all 36 courses at the Center and for 57 of the 69 courses at El Camino College. Other orientations are provided online. Students are informed of required or recommended orientation through the schedule of classes in printed or online form. The ECC and CEC websites offer a link to a *Student Handbook for Online Courses*. The handbook includes login information for Etudes (ECC's course management system), tips for success, FAQs, and information about required internet skills, computers on campus, and text materials on reserve. Finally, the distance education websites for ECC and CEC, provide a student self-assessment to determine preparedness (and recommendations to become prepared) for taking online courses.

Faculty Evaluation in Online Courses

Faculty evaluations for online teaching utilize the same survey as the on-campus course with the addition of three questions:

1. The instructor uses technology effectively as a teaching tool in the course.
2. The instructor's orientation made me feel well-prepared to use the technology needed to take the course
3. I am satisfied with the amount of interaction I have with the instructor.

Rigor of Online Courses

The academic rigor in online courses is equal to that of traditional on-campus courses. Syllabi of 23 courses offered online by the Compton Education Center and 18 offered online by ECC in 2008-2009 were collected and reviewed to analyze the quality and rigor. Of the 41 syllabi collected, 21 included formal student learning outcome statements, and of those that did not, 13 included course objectives. Beginning in academic year 2009-2010, syllabi for online courses as well as face-to-face courses will all include student learning outcomes. The requirements of academic integrity or the consequences for plagiarism or other forms of academic dishonesty were included in 24 of the syllabi collected. There was considerable evidence of demanding

assignments and high expectations, along with information about how to obtain the necessary support services.

Appendix 7: Analysis of Syllabi for Online Courses

Conclusion

The college assures that online courses and programs meet the same level of rigor as on-campus programs. A survey of syllabi for courses taught online was conducted by the Academic Affairs office and provided assurance that online courses offered through both locations are rigorous and convey high expectations. Support services are made available to students online. Student learning outcomes are incorporated into online courses in the same way they are included in on-campus courses, and this information is clearly communicated to students taking these courses. The online program is an important and effective part of fulfilling the college's mission.

Recommendation 6. El Camino College must develop a fiscal management plan at all sites, matched to its revenues, to assure the fiscal soundness of the institution. (III.D.2.c, III.D.2.d, III.D.2.g; III.D.3)

El Camino Community College District (ECCCD) meets or exceeds the Commission’s fiscal eligibility standards.

Improved Fiscal Soundness

The Center is reliant upon funding from the Compton Community College District (CCCD). At the time of the site visit, the 2006-07 audited financial statements were the most recent. Those audited statements contained an opinion letter with a “going concern” designation. Since the time of the site visit, CCCD’s 2007-08 audit has been completed. The opinion letter no longer contains a “going concern” designation.

Appendix 8: CCCD 2006-07 Annual Financial Report

Appendix 9: CCCD 2007-08 Annual Financial Report

Enrollment growth at the Center has enabled the Center to post an annual net operating balance. The Center’s budget projections for the next three years forecast ongoing annual net operating balances.

* Modified August 28, 2009

Assuring Fiscal Soundness

ECCCD and CCCD use an independent Certified Public Accounting (CPA) firm to assess the financial rigor of the annual basic financial statements for each applicable location. As with all

California Community College Districts, the auditing process is conducted late in the fall after the academic year ends on June 30th. The CPA firm typically issues the Independent Auditor's Report in December.

The team representing the Commission noted in their October visit that "the fiscal soundness of the ECC Center is of great concern" due to a current annual operating budget with a \$3.2 million deficit, "an Unqualified Opinion with a Going Concern," and 28 findings in the 2006-07 Auditors' report. These concerns have since been addressed. The Center's 2009-10 annual operating budget now has a \$2 million reserve; the "going concern" opinion has been removed; and lastly, 19 of the findings have been resolved, 7 are actively being addressed, and two were inactivated.

Appendix 9: CCCD 2007-08 Annual Financial Report

Appendix 10: Update of CEC FTES Recovery Plan

Appendix 11: CCCD Three Year Budget Projections

Appendix 12: CCCD 2009-10 Budget

Appendix 13: CCCD 2007-08 Audit Findings Action Plan

Fiscal Planning

The Compton District's budget is now balanced. The district has ended the 2008-09 fiscal year with a positive ending balance and has adopted a budget for 2009-10 that includes reserves and contingencies of approximately 7.4% of budgeted expenditures.

College and Center management have worked jointly since the beginning of the partnership to create an FTES recovery plan that will bring the Center back to serving a level of students the Center last experienced in 2004-05. During the first three years of the partnership, the Center met or exceeded its FTES goals and enrollment continues to increase at a very brisk pace. The Center grew from 2700 FTES in year one, to 3300 FTES in year two and 4600 FTES in year three. With the success of the first three year FTES projections, a new three-year projection has been designed to continue the Center's growth back to 2004-05 levels. With 2008-09 enrollment exceeding 4600 FTES, Compton will be funded on the basis of its actual FTES rather than under the guaranteed funding level specified in Assembly Bill 318.

Appendix 10: Update of CEC FTES Recovery Plan

Current annual growth has enabled the Center to build an annual net operating balance for this year. Projected annual growth is expected to maintain the annual net operating balance going forward. FTES growth projections are a driving component of the 2009 Educational, Facilities, and Staffing plans for the Center. The 2009 Staffing plan supports potential growth in certificated and classified staff at the Center.

Conclusion

The college has developed a fiscal management plan matched to revenues at all sites to assure the fiscal soundness of the institution. The CCCD has substantially improved its financial condition and attained relative stability.

Recommendation 7. El Camino College should develop a staffing plan for all sites which assures the effectiveness of human resources, includes written criteria for all personnel, and assigns individuals to duties appropriate to their expertise and the needs of the institution (III.A.1.a, III.A.1.b).

El Camino College employs a well-qualified staff dedicated to meeting the needs of our students and our community. There are currently 336 and 673 part-time faculty members. College management, office, technical, and grounds support functions are filled by 341 classified, 12 confidential, 19 police officers, 49 administrators, 22 supervisors, and 30 special services professionals. In Spring 2009, approximately 800 student, temporary classified, and casual employees provided additional office, classroom and lab assistance.

Staffing Plans

Staffing plans are developed in response to program reviews in which staffing needs are identified. Program managers submit justifications for filling a vacant or new position to the President’s Cabinet for approval. Requests are prioritized at the program, unit, and area levels for inclusion in the budget.

ECC adheres to equal employment opportunity guidelines and objective job-related criteria determined by position qualifications, institutional objectives, and representative selection for hiring. All employees must meet specific criteria established to perform representative duties of the classification or job. These criteria include minimum qualifications for both academic and classified positions, which the college lists in classification specifications (job descriptions) that are approved by the Board of Trustees. The college develops position announcements, in conjunction with the division, the President’s Cabinet, and the appropriate union representatives. Position announcements are then published through the Human Resources Office. Academic and classified employees’ hiring processes are outlined in Board-approved policies and procedures and respective collective bargaining agreements.

Several staffing issues face the College as it prepares for the next 5 to 10 years. ECC will experience significant changes in mid and upper level administrative positions due to turnover and retirements during the next ten years. Also impacting the organizational structure will be the significant number of anticipated faculty and staff retirements that will occur over the next five years and beyond. An analysis of fall 2008 District-wide staffing indicated that over 58% of the District’s workforce is over 50 years of age.

The present ECC organizational structure is relatively lean at the top levels of administration, particularly when compared to the existing student enrollment base and the span of control required for academic and support services oversight when compared to other Southern California colleges of similar size. The partnership with Compton Community College District has introduced a complexity that did not exist previously.

At the Center, 85 faculty members and 111 adjuncts are employed by the Compton Community College District. The original staffing projections at the time the partnership began indicated that the FTES would decrease and level off between the years 2006-11, requiring “the partner districts to work aggressively to right size expenditures to reflect actual and projected FTES”

(Proposal for Partnership with the Compton Community College District for Educational Excellence and Student Success, pg. 22). This trend has not materialized. Instead, the Center has experienced steady growth. When compared to other campuses that generate approximately 5200 FTES (2008-2009), the FTEF at the Center is comparable in size.

Critical management positions at the Center have been filled with qualified, regular employees. The filled positions include the CEO/Provost, two academic deans, a dean of student services, a Chief Business Officer, and a Dean of Human Resources. Positions still filled by interim employees include the Director of Facilities, Planning and Development, and the Director of Maintenance and Operations. A total of 117 full time classified and 45 part time classified employees are employed at the center.

External agencies such as FCMAT have expressed concern about the status of employee job classifications. Initially, El Camino College and Compton Educational Center tried to update the job descriptions internally. However, due to the complexity of the task, Compton Community College District recently hired Koff & Associates to conduct a classification study. Koff & Associates will develop updated and objective classification descriptions that are legally compliant, internally aligned, reflective of contemporary standards, and that accurately reflect the current roles, responsibilities, duties and qualifications of each employee. The study will make specific recommendations for internal compensation equity for all studied positions. The study is to be completed by August, 2009. There is no plan to implement a reduction in force at this time.

The 2009 Staffing Plan includes a section explaining how the Center will address training needs that were identified to bridge the gap between the results of the study and incumbent employee skills.

Appendix 14: 2009 ECC Staffing Plan,

Appendix 15: 2009 CEC Staffing Plan

Conclusion

El Camino College has a staffing plan for all employees of the El Camino College District which assures the effectiveness of human resources, includes written criteria for all personnel hired, and assigns individuals to duties appropriate to their expertise and the needs of the institution. El Camino College is ensuring the development of an effective and equitable human resources plan for employees of the Compton Community College District, including written criteria and appropriate assignment of duties to staff based on their expertise and the needs of the Center. Center staffing decisions are reviewed on a regular basis by the El Camino College Cabinet before positions are sent to the Compton Community College District Special Trustee for approval.

Recommendation 8: El Camino College must develop a facilities master plan for all sites, linked to educational planning, and integrate this plan with the institution's overall planning process (III.B.1.a, III.B.2.a, III.B.2.b).

By December 15, 2009, the updated Educational and Facilities Master Plans for the College and Center will be approved by both Boards of Trustees for continued implementation. As noted by the 2008 ACCJC site visit team, "comprehensive planning has been institutionalized at the College." The College Educational Master Plan was originally developed in 1998 and was updated in 2004.

Linked Educational and Facilities Master Plans

The development of the 2009 Educational Master Plan started in fall 2007, with the College updating the 2004 Educational Master Plan and the Center creating a new Educational Master Plan. The process began with all managers in Academic Affairs and Support Services updating their analyses of trends and projections from the 2004 Comprehensive Master Plan. Lead faculty members in each discipline determined whether their area would be stable, expanding, or contracting in a 1-to-5 year and 5-to-10 year time frame, and the academic deans provided a narrative addressing the staffing, facilities, infrastructure, technology, and curriculum implications of the projected changes. Managers at the Center conducted a similar analysis, adapting the College's data to their unique circumstances.

In fall 2008, program summaries were created, and data on enrollment was gathered; this information informed space needs analysis and staffing plans. A consulting firm has been engaged to conduct a facilities space-use analysis for the College and the Center. This report will be used to guide the Educational Master Plan and Facilities Master Plan.

In 2008, out of the immediate need to obtain state funding for infrastructure projects at the Center, a draft Facilities Master Plan was created. This enabled the College to obtain \$47.3 million in much-needed funding to install a new central plant at the Center to provide cooling and heating. New electrical trunk lines and data lines, water systems, and drainage systems will be built with these funds. When the Educational Master Plan is completed in Fall 2009, it will serve as the basis for revising the draft that was created in 2008.

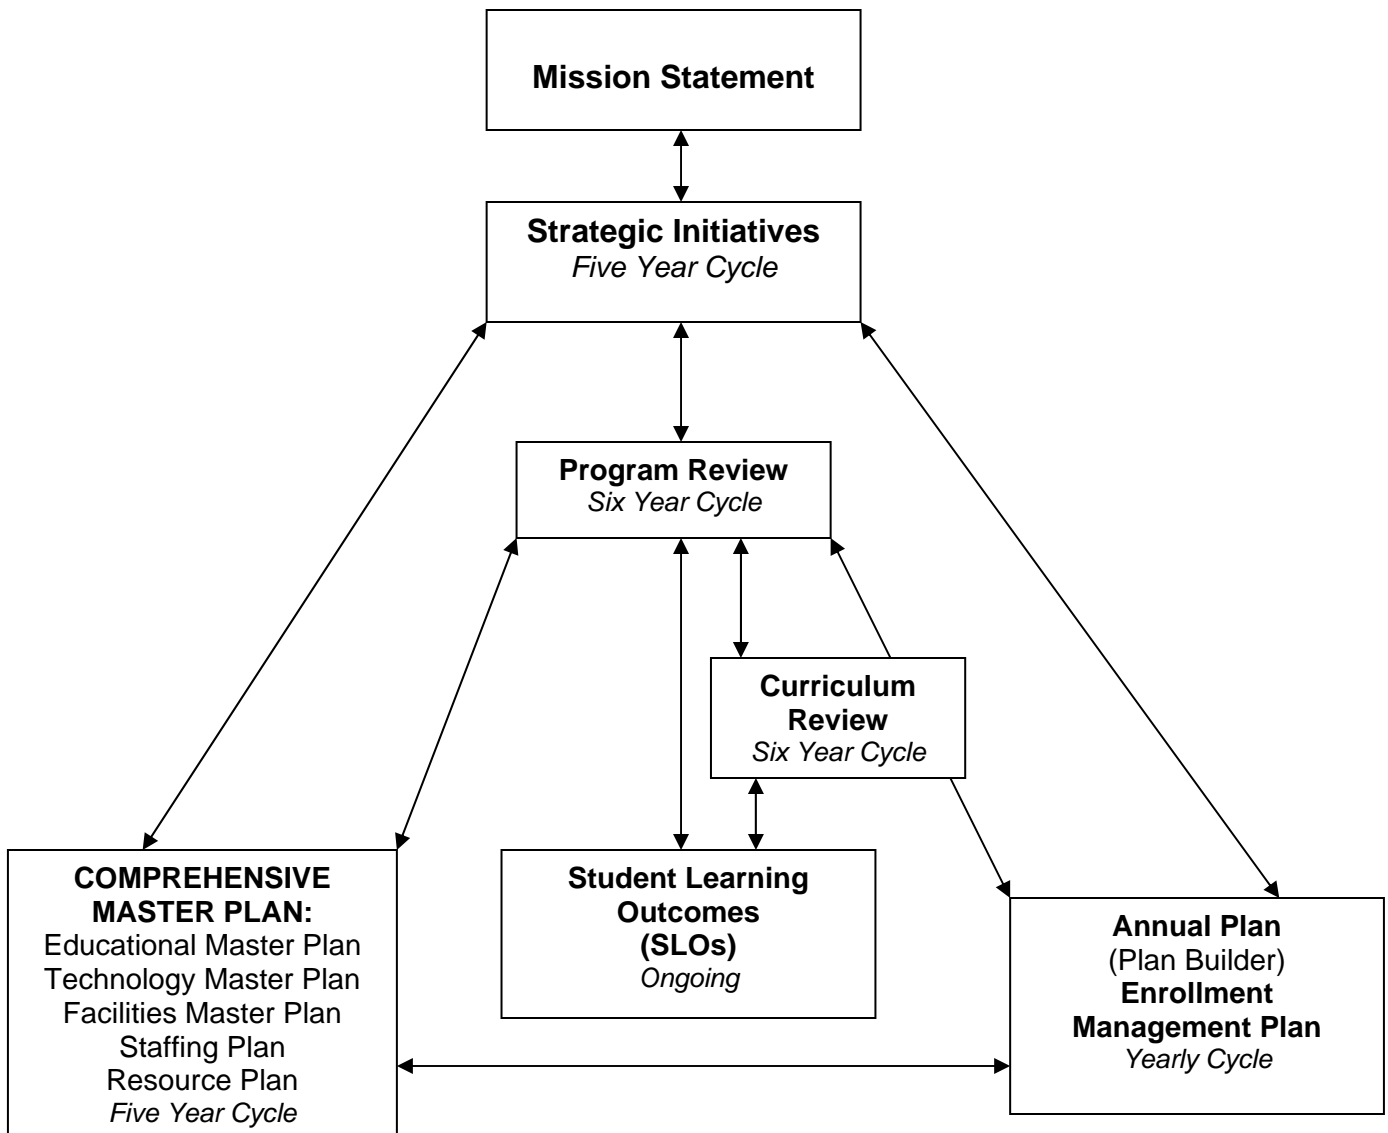

In May and June 2009, the dean in charge of planning and a principal from a consulting firm conducted interviews with all college and center managers to validate and update information submitted as Trends and Projections in fall 2008. By October, the dean will present a draft of the Educational, Technology, Facilities, and Staffing plans to College Council, Academic Senate, Planning and Budgeting, and Technology committees for review and comment. A revised draft will be presented to the Board of Trustees of both El Camino College and the Compton District for their first reading in November, with a final reading and approval expected in December, 2009.

The analysis is expected to show that the College will experience slow but steady growth and that the primary need is to update technology infrastructure and to replace aging buildings with flexible classrooms designed for student-centered pedagogy. Accessibility of student services and increases in interventions to support under-prepared students will continue to be

emphasized. The Center projects more rapid enrollment growth, and needs an infusion of technology and new and modernized facilities. The Center's infrastructure will need considerable improvements. Staffing needs will also increase to support enrollment growth.

The Facilities Master Plan is an integral part of the College planning process and is directly correlated to the Strategic Initiatives.

El Camino College Planning Model

Planning components include institutional effectiveness measures that drive resource allocation.

Recommendation 9: The Board of Trustees of El Camino Community College District must include in its code of ethics a clearly defined policy for dealing with behavior that violates this code. (Standard IV.B.h)

At its July 20, 2009 meeting, the Board of Trustees adopted a revision to Board Policy 2715, Code of Ethics/Standards of Practice which includes a clearly defined policy for dealing with behavior that violates this code. The Policy has been published on the College website.

STUDENT AND COMMUNITY ADVANCEMENT

A. GRANT – ACCEPTANCE

It is recommended that the Board accept the following grant:

Los Angeles Unified School District Local District 8 – El Camino College Local District 8 GEAR-UP Amendment. The amendment extends and increases the subcontract between the Los Angeles Unified School District and El Camino College from \$97,313.60 to \$217,313.60, which is an increase of \$120,000 for the 2009/2010 academic year to provide funds to recruit, train and place El Camino College students as tutors at Carson High School.

Project Director: Janet Young, Behavioral & Social Sciences

Amount of Grant Funding from Granting Agency	\$120,000
Amount of College Match (Cash)	<u>-0-</u>
Total Amount of Grant	\$120,000
Indirect Rate: None	
Performance Period: September 1, 2009 through August 31, 2010

Administrative Services

A. CHANCELLOR'S OFFICE TAX OFFSET PROGRAM

It is recommended that the Board approve the participation of the District in the Chancellor's Office Tax Offset Program (COTOP). In this program, the unpaid fees of resident students and students paying out-of-state fees are submitted for collection under the contract with the COTOP.

B. CONTRACTS UNDER \$76,700

It is recommended that the Board of Trustees, in accordance with Board Policy 6340, ratify the District entering into the following agreements. The Vice President of Administrative Services, or an authorized designee, has executed the necessary documents.

1. **Contractor:** CITY OF LONG BEACH – PACIFIC GATEWAY
WORKFORCE INVESTMENT NETWORK
Services: Under the State's Workforce Investment Act (WIA) Eligible Training Provider List (ETPL) program, eligible participants will receive educational training.
Requesting Dept.: Community Advancement - Workplace Learning Resource Center (WpLRC)
Date(s): 7/1/09 – 6/30/10
Financial Terms: Projected Gross Income dependent upon number of trainees
2. **Contractor:** FOUNDATION FOR CALIFORNIA COMMUNITY
COLLEGES (FCCC)
Services: The District will administer the child care program for participants enrolled in the State's Temporary Assistance for Needy Families – Child Development Careers (TANF-CDC) Program.
Requesting Dept.: Resource Development Office
Date(s): 7/1/09 – 6/30/10
Financial Terms: Projected Income \$50,731 (State Grant)
3. **Contractor:** GLOBAL COMMUNICATION SEMICONDUCTORS,
INC.
Services: The District will provide twenty-four hours of training in business skills, computer skills and continuous improvement.
Requesting Dept.: Community Advancement – Center for Applied Competitive Technology (CACT)
Dates(s): 9/9/09 – 6/30/10
Financial Terms: Projected Gross Income \$5,541
4. **Contractor:** INGLEWOOD UNIFIED SCHOOL DISTRICT –

CITY HONORS HIGH SCHOOL

Services: Through the El Camino Community College District's Program Project Lead the Way Engineering Technology Program, students will receive instruction in pre-engineering.
Requesting Dept.: Industry and Technology
Date(s): 7/1/09 – 6/30/10
Financial Terms: District will earn an estimated 27.8 FTES

5. **Contractor:** **MARFRED INDUSTRIES**
Services: The District will provide forty hours of training in business skills, computer skills and continuous improvement.
Requesting Dept.: Community Advancement - WpLRC
Date(s): 9/9/09 – 6/30/10
Financial Terms: Projected Gross Income \$6,003

6. **Contractor:** **MARINA DEL REY HOSPITAL, CFHS HOLDINGS, INC.**
Services: Contractor will provide clinical experience for students enrolled in El Camino College's Radiologic Technology program.
Requesting Dept.: Health Sciences and Athletics – Radiologic Technology
Date(s): 7/1/09 – 6/30/12
Financial Terms: No Cost to the District

7. **Contractor:** **THE DISTANCE LEARNING COMPANY, INC. (TrafficSchoolOnline.com)**
Services: The contractor will provide community on-line traffic school services.
Requesting Dept.: Community Education
Date(s): 9/1/09 – 6/30/10
Financial Terms: Projected Gross Income \$500 - \$1,000 monthly

8. **Contractor:** **TOYOTA MOTOR SALES USA, INC. - UNIVERSITY OF TOYOTA**
Services: The District will provide twenty-four hours of training in business skills, computer skills and continuous improvement.
Requesting Dept.: Community Advancement – WpLRC
Date(s): 9/9/09 – 6/30/10
Financial Terms: Projected Gross Income \$5,774

C. EL CAMINO COLLEGE CHILD DEVELOPMENT CENTER

It is recommended that the Board of Trustees approve the fee increase due to the need for additional revenue to cover the escalating costs in operating the Child Development Center. The last fee increase was in August 2005.

Proposed Fee (Effective 10/1/09)
