

ACKNOWLEDGEMENTS

The El Camino College Comprehensive Master Plan provides thoughtful insight into what the District will most likely look like in the next five to ten years. Internal and external information has been collected, reviewed and discussed by constituents throughout the campus in an effort to produce a shared document that has meaning and provides a sense of direction for the District, campus, faculty, staff, and students.

The College thanks the many employees and interested students who have provided their time, insight, and objectivity in the creation of this document. More specifically we would like to thank the following individuals for their leadership throughout this two-year process (2002-2004).
