El Camino College Breaks Ground on New Parking Structure

El Camino College recently celebrated the groundbreaking of a new parking structure on the north side of campus.

The Lot C Parking Structure will provide 1,443 parking spots for students, employees and visitors. This \$26 million project includes four levels of parking, including roof-top parking.

“This parking structure is an important piece of our overall Facilities Plan,” El Camino College Superintendent/President Dena P. Maloney said at the groundbreaking ceremony. “This is another project funded by the Measure E Facilities Bond; and we once again thank the voters in our community who continue to support El Camino College and our commitment to provide the best in academic programs and learning support services to students.”

The parking structure is scheduled to be completed in Fall 2017.
