

**Official Senate Candidates
General Elections Spring 2022**

Senator of Business Candidate

Sheriff Abdrahman

I'm Sheriff Abdrahman, currently majoring in business at El Camino. I'm connected to Business & Entrepreneurship as i believe it's a way to sight problems and sought out solutions to them. My academic goal is to transfer to UC Berkley as they have a great business program. Considering Entrepreneurship, my goal is to set up a global conglomerate that specializes in finance & investment.

My commitment to channeling positive impacts towards Business & the entire El Camino community prompted my decision to apply for this position. In the bid to make a difference, i know this position is a great start.

Business aside, my journey as an international student has empowered me with numerous problem-solving skills. I have learnt to embrace different perspectives whilst propelling growth. Being the Senator of Business comes with a lot of responsibility. However, I'm ready to take on this challenge as it would create a positive paradigm shift for myself and the community.

Senator of Humanities Candidate

Patrick Hahn

Hi! My name is Patrick Hahn, and I hope to be your next Senator of Humanities for the 2022-2023 school year. I want to join ASO because I like helping other students and getting involved in the college. I want to make sure that all students feel confident in themselves when going to school here at El Camino. I also want to give back to the community at this school!

I have a good handful of experience being a leader and organizer. I was a board member for two of my high school organizations, Choir and Academic Decathlon, and was also a House of Representatives for both. Because of this, I know how to be an effective leader and help my team grow! I hope by joining ASO to give students here at El Camino a better experience that I had when I first joined and make learning fun for them all. I hope to grow the community at the school and come up with better and new ways to support all students from different backgrounds to be the best they can be here at El Camino College!

Senator of Natural Sciences Candidate

Bella Ismail

John F. Kennedy once stated, "Leadership and learning are indispensable to each other." My fellow students, my name is Bareerah Ismail, although most of you may know me as Bella. I have been an ambitious biology student at El Camino for the last two years and am honored to run for Senator of Natural Science. As I am involved in numerous clubs and strive to make the best of every opportunity, as your senator, I would increase awareness about resources and opportunities for not just natural science majors but all students alike. I would also reach out to MESA and scout new opportunities for STEM majors, breaking the stereotype that 'there are fewer opportunities for community college students, especially for STEM majors'. Through awareness, equitable distribution of campus resources, and encouragement we could increase student turnout for school events and reach underserved demographics. As senator I would be accessible during and after office hours, knowing that through passion for change and helping others, I can aid my fellow students in getting more involved in the community, boosting their college applications, and acquiring knowledge. I would be honored to receive your vote this May.
