THE MONA LISA IS MISSING

Joe & Justine Medeiros

The Mona Lisa was stolen? Surprisingly, yes – on August 21, 1911. And even more shocking – it was taken by a Italian immigrant who hid it in his dingy tenement room in Paris for more than 2-1/2 years. How did he do it? Why did he do it? The answers to those questions and more are found in this award-winning documentary.

CHINA RISING

Dale Johnson

China has burgeoning economic expansion, ultra-modern cities, expensive shopping, traffic congestion, and huge farming operations with giant tractors. China is now the second largest economy and still expanding. It is still a country worth watching, and a country worth knowing. A fascinating people with a vibrancy, hunger and ambition to make things happen.

FOREST GIANTS

Gray Warriner

California is a special place: home to Giant Sequoias, the Earth's largest living things. Bathed in coastal mists, lush Redwood forests reach skyward, claiming title as the world's tallest trees. Stories from the deep forests of the Pacific Northwest make a different claim. Our search for forest giants brings us to spectacular landscapes and unique, exotic environments.

THE ROAD TO NAMIBIA

Rick Ray

Most people have never heard of Namibia even though they may know the world map very well. Yet it is one of the safest and most visually stunning countries in all of Africa. Sitting on the West coast north of South Africa and East of Botswana, Namibia is poised to become the "next big thing" tourist destination for world travel.

BRINGING HOME SARDINIA

Steve McCurdy

A tenderhearted look at the people of a small island located just off the coast of Italy. McCurdy films the islanders as they described their work, their values, and their hopes for themselves and their people. We examine the spirit of an ancient people searching to keep their cultural footing in the twenty-first century.
