

## Women's History Month

# *A Midwife's Story of Hope and Healing*

---

Join us as we close out Women's History Month with *A Midwife's Story of Hope and Healing*. Candace Leach, Licensed Midwife, began her birthing practice in 1996 and has helped to deliver hundreds of babies. After a tragic car accident in 2019, Candace has had to put her midwifery practice on hold as she focuses on her own physical and emotional healing. Come learn about the history and modern practice of midwifery and Candace's personal journey of providing healing and promoting hope.
