

### YOU HAVE TALENT!

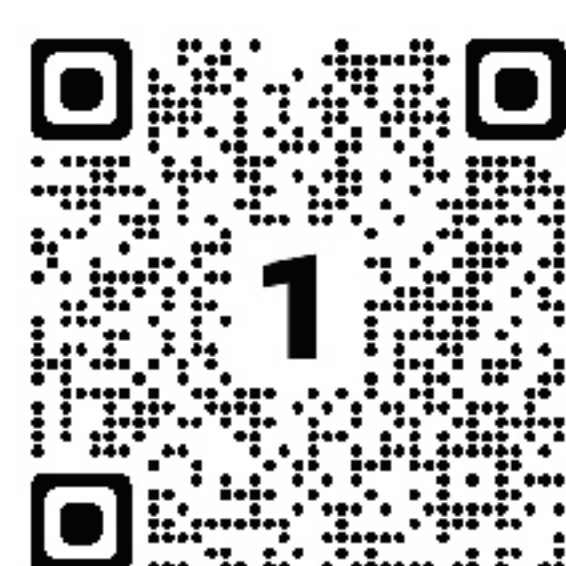

Yes, you. And not enough people know it. Not employers, not your neighbors, not even your friends and family. The Auto Draft is a new event designed to celebrate the skills progress you're making in collision repair, foster some friendly competition between schools, and encourage employers to value the technician you're becoming.

So we're throwing you a party and inviting over 500 bodyshops to come see that taking an autobody class isn't just watching videos and reading textbooks. You have skills, and you're improving them every day. So take a step toward your future and get noticed. Yes, you!
