

California State University (CSU) General Education Breadth 2019-2020

Please consult with a counselor for advisement and additional information
This document does not replace a Student Educational Plan

TRANSFER ADMISSION ELIGIBILITY:

A transfer student will be required to complete 60 CSU transferable units with a minimum grade point average of 2.0. Within the 60 units, 30 units must come from general education (GE), completed with a C grade or better, including the "golden 4", nine units from English composition, oral communications, critical thinking and three units from quantitative reasoning.

CERTIFICATION:

El Camino College will certify students who have completed the lower division general education requirements. Students who transfer without certification will be held responsible for the transfer institution's general education pattern. Students who have completed courses at other colleges are advised to see a counselor regarding "pass-along" of courses. Foreign course work may not be used for certification on the CSU breadth requirements. For full certification, students must complete 12 units of general education at ECC. Requests for certification should be made during the student's final semester in the Admissions Office.

1	These units count toward eligibility for admission. The units may not all apply toward certification of the corresponding GE-Breadth area. See Executive Orders 1033 and 1036 for details.
2	Areas of GE Breadth (A1 through E) are defined in EO 1033. Areas of American Institutions (US-1 through US-3) are set forth in Sections IA and IB of EO 405, and at assist.org.
3	Students seeking certification in GE Breadth prior to transfer must have passed the test before this date.
4	If a student passes more than one AP exam in calculus or computer science, only one examination may be applied to the baccalaureate.
5	Students who pass AP Environmental Science earn 4 units of credit. Tests taken Fall 2009 or earlier may apply to either B1+B3 or B2+B3 of GE Breadth. After F09, those credits may only apply to B1+B3.
6	If a student passes more than one AP exam in physics, only six units of credit may be applied to the baccalaureate, and only four units of credit may be applied to a certification in GE Breadth.
7	If a student passes more than one CLEP test in the same language other than English (e.g. two exams in French), then only one examination may be applied to the baccalaureate. For each test in a language other than English, a passing score of 50 is considered "Level I" and earns six units of baccalaureate credit; the higher the score listed for each test is considered "Level II" and earns additional units of credit and placement in Area C2 of GE Breadth, as noted.
8	The IB curriculum offers language at various levels for native and non-native speakers. Language B courses are offered at the intermediate level for non-natives. Language A1 and A2 are advanced courses in literature for native and non-native speakers, respectively.
